Al/Reza,

As discussed at about 1300 WST a MUA delegation headed by Chris Cain visited the office today requesting to speak with the Manager.

The issue they wanted to discuss was with regards to the MV PORTLAND and Australian seafarers treatment in that process. Chris handed over a letter addressed to Reza and attached hereto for which he requested a response.

With Chris at the AMSA office there were about 6 (tbc) Ladies whom apparently have worked on board the vessel at some stages but one in particular, which I understand was the cook (tbc) complained of the treatment she received when was kicked out of the ship at midnight.

Please also note that one of the MUA delegation videoed the meeting at the AMSA office.

Regards  
Carlo
