Subject: Response re MUA claims at Flag of Convenience hearing [SEC=UNCLASSIFIED]

Hi Michael and Judi,

I would like the Department to prepare a response to the MUA claims in the Senate hearing at the moment... for instance, that the law says that if there is an Australian ship it has to carry the cargo irrespective if the owner wants to or not. The point being to reiterate that no one put in a response to the Temporary Licence in either the Portland or the Newcastle case.

Thanks,

Jess
