TO WHOM IT MAY CONCERN

The Dandenong Ranges Emergency Relief Service Inc is excited about the prospect of joining other services operating from a Community Health facility located in Belgrave.

We are pleased to give our support to Yarra Ranges Council for their Community Infrastructure Fund submission for the Belgrave Multi-Purpose Health Hub.

The provision of local Emergency Relief would complement the other health services and provide a Community Health facility within walking distance of public transport networks.

We have been working with Yarra Ranges Council throughout the consultation period. This process has involved our paid Staff, members of our Committee of Management and our Volunteers.

The Dandenong Ranges Emergency Relief Service Inc fully supports Yarra Ranges Council in seeking funding for this facility. If the Community Infrastructure Fund submission is successful, our most vulnerable and disadvantaged community members will have better access to the services they need the most, enabling all services located within the hub to work collaboratively to provide the best health and welfare services for our community.

Yours sincerely,

Tania Bevan
Manager
Dandenong Ranges Emergency Relief Service Inc.
