T—CATEGORY TRAILERS

A guide to the applicability of the Australian Design Rules (ADRs) in force for T—Category Vehicles—Trailers

January 2018

Third Edition ADRs – Applicability Summary
Trailers
January 2018

1. This Table shows:
 - a. the ADRs currently in force for **new** model vehicles and the vehicle categories to which they are applicable, as at the date this Applicability Summary is published (see footer and note *);
 - b. the dates on which new ADRs will come into force and the vehicle categories to which they will be applicable (light green highlighted);
 - c. earlier revisions of the ADRs that may be accepted as equivalent to the standards in force for **new** model vehicles (refer to each ADR's list of acceptable prior rules); and
 - d. the ADRs that have been superseded by other standards (light yellow highlighted) or withdrawn with no direct replacement (light red highlighted).

2. ADR notation:

ADR X/00 indicates the original version of ADR X

ADR X/01 indicates the first revised version of a standard where the amendment increases in stringency, includes additional vehicle categories, or changes content significantly. ADR X/02 is the second revision, and so on.

ADR X/..., the ellipsis “...” indicates the latest version.

3. Vehicle Category Codes:

Codes for vehicle categories and definitions are in [Definitions and Vehicle Categories](#) and can be found on web page: <http://www.infrastructure.gov.au/roads/motor/design/adr_online.aspx> (The United Nations (UN) Vehicle Category Codes are also shown in brackets in the Table)

TA - VERY LIGHT TRAILER - A single-axle trailer with a ‘Gross Trailer Mass’ (GVM) not exceeding 0.75 tonne.

TB - LIGHT TRAILER - A trailer with a ‘Gross Trailer Mass’ not exceeding 3.5 tonnes, other than a trailer of Category TA.

TC - MEDIUM TRAILER - A trailer with a ‘Gross Trailer Mass’ exceeding 3.5 tonnes but not exceeding 10 tonnes.

TD - HEAVY TRAILER - A trailer with a ‘Gross Trailer Mass’ exceeding 10 tonnes.

4. **The table is for guidance only. Please refer to the relevant standard for the circumstances under which the standard is mandatory, optional or prohibited.**

5. Symbols used in the Table:

<i>Symbol</i>	<i>Meaning</i>
X	Applicable.
*	Application date when the ADR became effective for the vehicle category described.
**	Application date may be different for category types. See relevant standard for details.

6. Trailers with an ‘Aggregate Trailer Mass’ (ATM) not exceeding 4.5 tonne may be constructed to meet Vehicle Standards Bulletin (VSB) number 1. Trailers built to meet the requirements in this bulletin are accepted as meeting the relevant ADRs.

(VSB 1 web page:
http://www.infrastructure.gov.au/roads/vehicle_regulation/bulletin/vsb1/index.aspx)

7. In addition to the above, Australian Design Rule – Harmonisation, facilitates the automatic acceptance of the latest version of UN regulations that have been adopted as alternative standards within the ADRs and have been ‘applied’ by Australia under the UN 1958 Agreement. Refer to <http://www.comlaw.gov.au/Details/F2012L00336> for more information.
