CANBERRA ACT 2600

Sue Milton,
Dear President and Mr Speaker

I hereby submit the Portfolio Additional Estimates Statements in support of the 2024–25 Additional Estimates for the Infrastructure, Transport, Regional Development, Communications and the Arts Portfolio.

These statements have been developed, and are submitted to the Parliament, as a statement on the funding requirements being sought for the Portfolio.

I present these statements by virtue of my ministerial responsibility for accountability to the Parliament and, through it, the public.

Yours sincerely

Catherine King MP

Estimates Statements**

User Guide

The purpose of the 2024–25 Portfolio Additional Estimates Statements (PAES), like that of the Portfolio Budget Statements (PB Statements), is to inform Senators and Members of Parliament of the proposed allocation of resources to Government outcomes by entities within the portfolio. The focus of the PAES differs from the PB Statements in one important aspect. While the PAES include an Entity Resource Statement to inform Parliament of the revised estimate of the total resources available to an entity, the focus of the PAES is on explaining the changes in resourcing by outcome(s) since the Budget. As such, the PAES provides information on new measures and their impact on the financial and/or non-financial planned performance of programs supporting those outcomes.

The PAES facilitate understanding of the proposed appropriations in Appropriation Bills (Nos. 3 and 4) and Appropriation (Parliamentary Departments) Bill (No. 2) 2024–2025. In this sense, the PAES is declared by the Additional Estimates Appropriation Bills to be a ‘relevant document’ to the interpretation of the Bills according to section 15AB of the *Acts Interpretation Act 1901*.

Structure of the Portfolio Additional Estimates Statements

The PAES are presented in three parts with subsections.

User guide

Provides a brief introduction explaining the purpose of the PAES.

Portfolio overview

Provides an overview of the portfolio, including a chart that outlines the outcomes for entities in the portfolio.

Entity Additional Estimates Statements

A statement (under the name of the entity) for each entity affected by Additional Estimates.

Section 1: Entity overview and resources

This section details the changes in total resources available to an entity, the impact of any measures since Budget, and impact of Appropriation Bills Nos. 3 and 4.

Section 2: Revisions to outcomes and planned performance

This section details **changes** to Government outcomes and/or **changes** to the planned performance of entity programs.

Section 3: Special account flows and budgeted financial statements

This section contains updated explanatory tables on special account flows and staffing levels and revisions to the budgeted financial statements.

Department of Infrastructure, Transport, Regional Development, Communications and the Arts

Section 1: Entity overview and resources

1.1 Strategic direction statement

The functions and work of the Department of Infrastructure, Transport, Regional Development, Communications and the Arts touches the lives of every Australian, every day. The Department has a national footprint with our people working in Canberra and across all states and territories. We have a truly national perspective in our vision to connect Australians to enrich our communities and empower our regions.

The Portfolio Additional Estimates Statements showcase how we plan to deliver on a significant agenda of regulatory, program and policy delivery, across one of the most diverse portfolios in the Australian Public Service. We will deliver through respectful and meaningful engagement across all levels of government, working closely with our seven Ministers, 29 portfolio entities, communities, and key industry stakeholders.

Our nation-wide infrastructure projects support economic and social development, disaster resilience and recovery, and create long-term productivity benefits for producers, businesses and communities. We will continue to support the Government in its delivery of transport infrastructure projects, informed by the Government's Infrastructure Policy Statement, and through its sustainable management of the 10-year infrastructure investment pipeline. We will deliver high quality, nationally significant infrastructure through strong partnerships with state and territory governments and other delivery partners.

We strive for the safe use of our transport network and to this end have delivered a National Road Safety Education and Awareness Campaign and continue to improve the availability and collection of data by enhancing the National Road Safety Data Hub.

The Department's work across all transport sectors enables Australians to connect safely to the world and each other. We will work in partnership with the states and territories to deliver reforms that enhance the productivity and safety of the rail and heavy vehicle sectors, including the National Rail Action Plan and the National Automated Access System for heavy vehicles. We are also improving operations in freight across Australia through continued investment in Inland Rail and intermodal terminals to benefit business and consumers from a more efficient supply chain. We will deliver on the Government's commitment to establish a Strategic Fleet Pilot Program to secure Australia's at-call maritime capability, and will progress High Speed Rail between Newcastle and Sydney.

Given Australia's geography and the vast size of our continent, access to aviation services is vital to connect people, businesses, and communities. We will deliver the

Government's commitment to the Aviation White Paper, setting out the policies which will guide the sector through the challenges posed by the transition to net zero by 2050 and the rise of future aviation technologies. Additionally, we continue to play a crucial role in the construction and operationalisation of the Western Sydney International (Nancy-Bird Walton) Airport, which when operational in 2026, will provide world-class facilities.

Our portfolio will play a significant role in supporting the Government to reach its emissions reduction targets and achieve net zero, with the forthcoming draft Transport and Infrastructure Net Zero Roadmap (the Transport Sector Plan) setting the strategic direction for decarbonisation, particularly in transport and infrastructure. We have supported the Government to advance the National Vehicle Efficiency Standard (NVES), with the *New Vehicle Standard Act 2024* coming into effect on 1 January 2025, and its enforcement by the NVES Regulator from 1 July 2025, along with the necessary information technology investment. We are also consulting on support options for an Australian low carbon liquid fuels industry to aid the transport sector in its net zero transition and will be administering the new national Active Transport Fund that will upgrade and deliver new bicycle and walking paths.

Our work in Australia's cities, regions, and territories connects and empowers communities, improves productivity and liveability, and seeks to lift living standards. We will continue to deliver the Government's *More Liveable Cities and Suburbs Plan*, leading a national approach to the growth of our cities and urban areas, including through policy development, program funding, and through close collaboration and partnerships with all levels of government. We develop and deliver strong governance frameworks for Australia's non-self-governing territories, and deliver services to support those communities, working with our state government service delivery partners. We are continuing to provide essential infrastructure with investment to maintain critical assets, in particular, in the Indian Ocean and Jervis Bay Territories and Norfolk Island. Furthermore, we are committed to securing a strong and sustainable future for northern Australia through the Government's Northern Australia agenda. We aim to develop, implement, and coordinate policies and programs that support sustainable economic development, and provide a foundation for resilient and prosperous communities.

Access to communications services is essential for an inclusive and prosperous society. The Department's work across communications and media policy includes policy and advice on media diversity and public interest journalism, and progressing work to ensure Australia's media policy settings are fit-for-purpose. We work with industry and Government to support sustainable Australian media services, including advising the Government on matters related to our national broadcasters, the Australian Broadcasting Corporation and Special Broadcasting Service Corporation. The Portfolio supports the Government's commitment to improving the safety of Australians online and in telecommunications services, and we are taking action to advance the protection of children from harmful online content. This includes our work on classification, online safety and interactive gambling. We work to ensure a more connected and inclusive Australia in broadband and satellite services policy, cost of living measures for regional and remote communities and digital inclusion for First

Nations communities. The Department also ensures that all Australians are able to access the benefits of modern telecommunications and postal services through regulation and programs to deliver equitable access, including in regional and remote Australia.

Our work in the arts has economic, cultural, educational and social importance. We are securing the future of Australia's national arts training organisations, improving access for children to quality Australian made screen content and providing support for live music venues and music festivals. Investment in First Nations languages learning will establish two new First Nations language centres, increase funding for existing language centres and for community language learning. Through these outcomes we continue to deliver the actions in *Revive: a place for every story, a story for every place* - Australia's National Cultural Policy. Revive is the Government's five year commitment to the arts and is the strategic framework for contributing to whole-of-Government outcomes including health, education, social cohesion, community resilience, tourism and regional development. To support this work, we are working closely with the arts and cultural sector and governments at all levels, including Creative Australia (formerly the Australia Council for the Arts), Screen Australia, our national collecting institutions and arts training organisations.

The Department is working across government and with First Nations communities and organisations to deliver on our commitments under the National Closing the Gap Agreement, including the implementation of the four Priority Reforms to transform the way in which we work with Aboriginal and Torres Strait Islander people, communities and organisations.

Across the Department and with our portfolio entities, we work collaboratively to deliver our programs, projects and services in the major infrastructure, transport, communications and arts sectors, supporting our regions, cities and territories.

We will monitor our progress, measure and deliver through our five purposes, which are:

- **Transport Connectivity**
Supporting an efficient, sustainable, competitive, accessible, safe and secure transport system and supporting jobs through infrastructure investment
- **Regional development**
Improving living standards and facilitating economic growth in cities and regions including Northern Australia Territories
- **Territories**
Providing governance frameworks and services to support communities in the territories

- **Communications Connectivity**
Enabling people in Australia to connect to effective, safe communications services.
Enabling investment in communications technologies, for inclusiveness and sustainable growth.
- **Creativity and culture**
Supporting sustainable and inclusive creative and cultural sectors, and protecting and promoting Australian content and culture.

For more information on our strategic direction and performance, please refer to our Corporate Plan, online at: <https://www.infrastructure.gov.au/about-us/corporate-reporting/2024-25-corporate-plan>

Section 2: Revisions to outcomes and planned performance

2.1 Changes to outcome and program structures

There has been no revision to the outcome or program structure of the Department as a result of the additional estimates since the publication of the 2024-25 Infrastructure, Transport, Regional Development, Communications and the Arts PB Statements.

2.2 Budgeted expenses and performance for Outcome 1

Outcome 1: Improved infrastructure across Australia through investment in and coordination of transport and other infrastructure

Linked programs

There have been no changes to linked programs for this outcome from that published in the 2024-25 Infrastructure, Transport, Regional Development, Communications and the Arts PB Statements.

Budgeted expenses for Outcome

This table shows how much the Department intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

3.2 Budgeted financial statements

3.2.1 Analysis of budgeted financial statements

Departmental

The Department recognised a deficit of \$28.0 million in 2023-24 and is budgeting to break even in 2024-25 and across the forward estimates, after adjusting for depreciation and amortisation expenses, and adjustments for leases.

The Comprehensive Income Statement (showing net cost of services) for the periods ended 30 June (Table 3.2) reflects the impact of these changes.

Administered

Administered Expenses in 2024-25 have decreased since the 2024-25 Budget due to funding being brought forward from 2024-25 and paid in 2023-24 to assist cashflow for local government councils under the *Local Government (Financial Assistance) Act 1995*. Further details on local government program expenses can be found in Table 2.4.1. It also reflects funding transferred to the Treasury for payment to the States and Territories through Specific Purpose Payments for some programs.

The Schedule of Budgeted Income and Expenses administered on behalf of Government for the periods ended 30 June (Table 3.8) reflects the impact of these changes.

(a) From 2010-11, the Government introduced the net cash appropriation arrangement that provided non-corporate Commonwealth entities with a separate Departmental Capital Budget (DCB) under Appropriation Act (No.1) or Bill (No. 3). This replaced revenue appropriations provided under Appropriation Act (No.1) or Bill (No. 3) used for depreciation/amortisation expenses. For information regarding DCB, refer to Table 3.6 Departmental Capital Budget Statement.

(b) Applies to leases under AASB 16 Leases.

- (a) From 2010-11, the Government introduced net cash appropriation arrangements where Appropriation Act (No. 1) or Bill (No. 3) revenue appropriations for the administered depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate Administered Capital Budget (ACB) provided through Appropriation Act (No. 1) or Bill (No. 3) equity appropriations. Australian Communications and Media Authority

Section 1: Entity overview and resources

1.1 Strategic direction statement

The Australian Communications and Media Authority (ACMA) is Australia's regulator for telecommunications, broadcasting, radiocommunications, unsolicited communications and certain online content. The ACMA's purpose is to contribute to maximising the economic and social benefits of communications infrastructure, content and services for Australia, which the ACMA does by:

- maintaining, enforcing, and improving regulation to drive industry performance and protect consumers, and
- managing public resources to enable industry to deliver services to the community.

Australians rely on communications networks, broadcasting and online media, and digital technologies to access information and essential services. This reliance does, however, increase the risks that Australians are exposed to, such as the impact of exposure to mis and disinformation online and threats of identity theft.

Interconnectivity and communications mobility are integral to the lives of all Australians and there is growing demand for larger amounts of data and faster, more reliable internet connections, requiring significant, ongoing infrastructure investments by telecommunications companies.

The ongoing growth in consumer use of digital platforms continues to cause disruption to consumption of traditional broadcast media. Boundaries between digital platforms and traditional broadcast media are increasingly blurred and there is a greater focus on the appropriate regulatory framework for content delivered over all platforms.

To achieve the outcome of 'a communications and media environment that balances the needs of the industry and the Australian community through regulation, education and advice' the ACMA has adopted the following two key activities that are outlined in its Corporate Plan:

- support an efficient and reliable communications infrastructure.
- build consumer trust in the use of communications content and services.

The eSafety Commissioner (eSafety) is Australia’s independent regulator for online safety. eSafety fosters online safety by exercising its powers under Australian Government legislation, primarily the *Online Safety Act 2021*, to protect Australians from serious online harms.

Online harms are actions that take place wholly, or partially, online that can damage an individual’s social, emotional, psychological, financial or even physical safety. These harms can occur because of content, conduct or contact.

Advances in technologies, such as the expanding capabilities of machine learning, artificial intelligence (AI) – including generative AI – and immersive technologies will continue to escalate online connections, communications, entertainment, sharing and learning, which bring the prospect of new possibilities for abuse.

eSafety achieves its purpose through three key activities outlined in its Corporate Plan:

- **Prevention:** eSafety designs and delivers educational materials to prevent online harms, working with key sectors and community members to build user capability and resilience.
- **Protection:** eSafety alleviates online harms through our investigations and regulatory schemes, in response to reported and identified harms.
- **Promoting proactive and systemic change:** eSafety implements and enforces industry regulatory measures and expectations to drive proactive and systemic change in online safety.

1.2 Entity resource statement

The Entity Resource Statement details the resourcing for the ACMA at Additional Estimates. Table 1.1 outlines the total resourcing available from all sources for the 2024–25 Budget year, including variations through Appropriation Bills No. 3 and Special Accounts.

Amounts presented below are consistent with amounts presented in the Appropriation Bills themselves, and as published in appropriation notes to the 2023–24 financial statements.

All figures shown above are GST exclusive – these may not match figures in the cash flow statement.

(a) *Appropriation Act (No. 1) 2024–2025* and *Appropriation Bill (No. 3) 2024–2025*. Actual Available Appropriation column reflects the closing unspent appropriation balance from the entity's 2023–24 annual

report and encompasses *Appropriation Act (No. 1) 2023–2024*, *Supply Act (No. 1) 2023–2024*, *Supply Act (No. 3) 2023–2024* and *Appropriation Act (No. 3) 2023–2024*.

- (b) Excludes Departmental Capital Budget (DCB).
- (c) Estimated external revenue receipts under section 74 of the *PGPA Act*.
- (d) Departmental capital budgets are not separately identified in *Appropriation Act (No. 1)* and form part of ordinary annual services items. Refer to Table 3.6 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.
- (e) *Appropriation Act (No. 2) 2024-2025*.
- (f) Excludes trust moneys held in Services for Other Entities and Trust Moneys (SOETM) and other special accounts. For further information on special accounts (excluding amounts held on trust), refer to Table 3.1. Please also see Table 2.1.1 for further information on outcome and program expenses broken down by various funding sources, e.g. annual appropriations, special appropriations and special accounts.
- (g) Amounts credited to the special account(s) from the ACMA's annual and special appropriations.
- (h) Includes section 77 refunds under the *PGPA Act* which are not included as expenditure.

1.3 Entity measures

Table 1.2 summarises new Government measures taken since the 2024–25 Budget. The table is split into receipt and payment measures, with the affected program identified.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in funds.

(a) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses, amortisation expenses, and write-down and impairment of assets.

(b) Estimated expenses incurred in relation to receipts retained under section 74 of the *PGPA Act 2013*.

(c) The ACMA receives funds through Special Appropriations for refunds under the *PGPA Act — section 77* and funding for 'Other Trust Monies' which, when used, are not expensed and therefore not included in this table.

(d) Appropriation receipts to the Online Safety Special Account excludes section 74 revenue and Departmental Capital Budget (DCB).

(e) Expenses made from appropriation to the Online Safety Special Account excludes expenses met directly by the ACMA, and those covered by section 74 revenue and DCB.

Performance measure for Outcome 1

There has been no change to performance measures for Outcome 1 resulting from decisions made since the 2024-25 Budget. Details of the ACMA's performance measures can be found in the 2024-25 Infrastructure, Transport, Regional Development, Communications and the Arts PB Statements.

Section 3: Special account flows and budgeted financial statements

3.1 Special account flows and balances

Estimates of special account flows and balances

Special Accounts provide a means to set aside and record amounts used for specified purposes. Table 3.1 shows the expected additions (receipts) and reductions (payments) for each account used by ACMA.

3.2 Budgeted financial statements

3.2.1 Analysis of budgeted financial statements

The entity resource statement is prepared on a cash basis and provides a view of cash/appropriations resources available to the ACMA, whilst the financial statements are prepared on an accrual basis.

The ACMA is budgeting for a break-even position in 2024-25 and the forward estimates, excluding depreciation and amortisation expenses, and adjustments for leases under the AASB 16 Leases accounting standard.

Expenses and revenue from the government have increased since the 2024–25 Budget due to new measures in the 2024–25 Mid-Year Economic and Fiscal Outlook (MYEFO) (including indexation).

The comprehensive Income Statement (showing net cost of services) for the periods ended 30 June (Table 3.2) reflects the impacts of these changes.

Special Broadcasting Service Corporation

Section 1: Entity overview and resources

1.1 Strategic direction statement

The Special Broadcasting Service Corporation (SBS) is Australia's national broadcasting and media service providing multicultural and multilingual television, radio and digital media services that inform, educate and entertain all Australians. SBS's purpose is to inspire all Australians to explore, respect and celebrate our diverse world, and in doing so, contribute to a cohesive society. SBS and its functions are guided by its Charter in section 6 of the *Special Broadcasting Service Act 1991* (SBS Act).

SBS is unique in the Australian media landscape

For 50 years, the SBS Charter, hybrid funding model, innovative and multiplatform content offering, and depth and breadth of in-language services (more than 60 languages including English), has ensured that SBS is unique in the Australian media landscape.

SBS was established to positively contribute to Australia's success as a multicultural society, recognising that Australia has been fundamentally shaped by migration. It is now the most multilingual broadcaster in the world. SBS is also home to NITV (National Indigenous Television), the only national broadcasting and media service made by, for, and about Aboriginal and Torres Strait Islander peoples. The network's unique position enables it to present compelling, distinctive, and thought-provoking content like no other Australian media organisation.

Every five years, SBS conducts a Language Services Review, utilising the outcomes of the latest Australian Census to ensure its commitment to meeting the needs of Australia's rapidly changing and increasingly diverse society. In 2022–23 SBS updated its SBS Audio multiplatform services to include four new languages from the Asia-Pacific region (Bislama, Malay, Telugu and Tetum) and a language from East Africa (Oromo).

By providing a trusted platform for news and information, civic debate, and matters important to contemporary Australia, SBS's services are vital both to Australian democracy, and in building a sense of belonging for everyone in Australia.

SBS supports broader social and policy objectives

The 2021 Census results demonstrate that Australia is now more multilingual than ever. From 2011 to 2021, the number of people using a language other than English at home increased to more than 5.6 million, representing an increase of more than 1.5 million since 2011 and nearly 800,000 since 2016 – growing at almost double the rate of the general population. A further 3.8 per cent of the population identify as Aboriginal and/or Torres Strait Islander.

With this increasing diversity, there has never been a greater need to build mutual understanding and social cohesion amongst all Australians. SBS has a continuously evolving multifaceted language strategy, to serve Australia’s language and cultural communities as they grow and change. SBS serves these communities wherever they are via TV, radio, video and audio on demand and social media.

SBS will continue to look for opportunities to further unlock the value of its existing services and activities to support communications and service delivery to the community across a range of federal and state or territory portfolios, in Australia and potentially further abroad, while preserving its editorial independence.

SBS’s trusted news and information services contribute to national policy objectives regarding social cohesion

In a world of growing polarisation of views and inaccurate and misleading information (particularly online), developing and maintaining trust with audiences as well as plurality of voices will continue to be a challenge for traditional media, social media and digital platforms. In 2024, SBS was the most trusted news brand in Australia according to the University of Canberra and Reuters Institute Digital News Report 2024, with a long-held and well-earned reputation for quality news and analysis on local and global events.

SBS produces daily SBS World News TV news bulletins as well as regular Nula bulletins (NITV news). As a reliable and free source of impartial and accurate news and current affairs, which is subject to rigorous editorial standards, SBS has a valuable role in the overall news and information ecosystem in Australia.

A research study conducted by the University of Canberra in collaboration with SBS, found that news representation, trust in news, and confidence to participate, foster a stronger sense of belonging in Australia overall. The Sense of Belonging among Multilingual Audiences in Australia report also highlights that SBS is more successful at helping multilingual Australians feel fairly represented in news compared to other news sources. This fair representation fosters a greater sense of belonging, emphasising the value of a multilingual broadcaster in promoting social cohesion at a community level and is demonstrative of SBS’s contribution to national policy objectives regarding social cohesion.

SBS showcases diverse stories and perspectives

SBS is making more Australian content than ever before, including distinctive dramas and factual programming that truly reflect our community. Programs like *Alone Australia*, *Eurovision* and *Eddie's Lil Homies* are reaching record audiences and reflecting the diversity of the Australian community in an entertaining and authentic way.

SBS is also industry-leading in its content accessibility, with audio description on broadcast television for audiences who are blind or have low vision, captioning, subtitling, and a dedicated news service that uses easy-to-understand and slow-paced English language (*SBS News in Easy English*). SBS also offers some programs published on SBS On Demand with Auslan interpretation, and a free audio English language learning service, *SBS Learn English*, available to the 870,000 Australians who do not speak English well or at all. This extensive array of work continues to help increase audiences' accessibility to SBS's wide range of content, further supporting social inclusion and cohesion.

The online digital video market continues to evolve

Delivering on SBS's purpose and Charter in upcoming years will see continued focus on SBS being a distinctive network across both traditional and online platforms to allow a diverse array of views and voices to be represented in mainstream media.

SBS is committed to serving our audiences with world-class content on all platforms, when and how they want to experience it. Over a number of years, SBS has been investing heavily in its digital experience, with the goal of being platform agnostic when it comes to the audience experience. Audiences can come to SBS and achieve a world-class experience, regardless of the medium by which they choose to engage with our content. Across all our platforms – be it linear television, linear radio, digital publishing, video or audio/ podcasting – SBS audiences are delivered an experience which seeks to deepen their engagement and drive further consumption.

In 2024, SBS On Demand became the first digital content platform that provides audiences with an ability to opt-out of specific categories of advertising (wagering, alcohol and quick-service restaurants). This not only increases consumers' choices and enables audience personalisation, but also provides a more bespoke offering for SBS's advertising clients.

Traditional broadcast television remains the cornerstone of free-to-air viewing in Australia, reaching millions daily. As the digital video market rapidly expands with an influx of local and global on-demand platforms such as Netflix, Disney+, and Amazon Prime, Australians are now navigating an abundance of choice. This evolving landscape is reshaping how Australians consume video, intensifying

competition, and bringing previously unavailable platforms into the local market. SBS continues to deliver a consistent and robust annual strategic review in response to rapid market and audience shifts. In this dynamic environment, our unique ability to reach all Australians – across every language and community – sets us apart. We have the power to educate, entertain, and inform through trusted news, diverse storytelling, and a commitment to reflecting the full spectrum of Australian life. Our role in connecting Australians through accessible, reliable, and culturally relevant content has never been more vital.

SBS monitors the technology landscape particularly around developments in AI to keep pace with market, and to evolve our Strategic Plan and priorities. SBS is currently exploring positive uses of AI in its operations to benefit Australian audiences and stakeholders. To support the ongoing development and use of AI, SBS has implemented AI governance, ethics and guardrails that align with SBS's risk appetite and ensure human oversight across AI usage. In addition, SBS is assessing itself against Government recommended standards to ensure that we are safely and responsibly using AI.

SBS will continue to evolve its services to meet audience needs, reflecting changes in social and demographic composition, technological developments and audience behaviours.

Prominence and presence of freely available high-quality Australian content on connected televisions and devices must be prioritised

SBS welcomes the passage of the prominence legislative framework by the federal parliament. As online consumption rapidly grows, it is increasingly important that the SBS network and its content are present and easily accessible on the growing array of connected televisions (CTVs) and devices through which audiences consume content. The new legislated requirements to make free-to-air (FTA) TV apps present, with a level of prominence, on CTVs will support Australian broadcasters including SBS, which provide the Australian audiences with high-quality, locally-produced content in the public interest – for free. Regulations made in support of the legislation confirm that the SBS On Demand app will appear on the home screen on start-up without the user being required to scroll, access menus, or undertake any other input or action.

In a similar vein, global social and search platforms have complete control over how much (or how little) Australian news content appears on their platforms. This can significantly impact audience access to trusted and reliable news sources such as SBS in an environment that is otherwise flooded with inaccurate and misleading information. In pursuing their commercial gains, these global platforms can, in effect, undermine Australia's civic society by allowing commercial deals and less reliable information to be prevalent on their platforms. The Government has announced it will introduce a revised news bargaining scheme to address these

concerns. SBS welcomes any mechanisms which will require global technology firms to fairly compensate SBS for use of its news content.

A new production facility in Western Sydney

Following the completion of the initial stage of the SBS Relocation Feasibility Study, SBS has received funding of \$5.9 million to scope a new, standalone SBS content production hub in Western Sydney, following the Government’s decision to pursue this option instead of continuing to explore full relocation of the Artarmon office.

This outcome will allow SBS to expand its content offer for all Australians through news and current affairs, multilingual audio programs and screen content. It will boost overall production capability and embed SBS in the Western Sydney community, where 2.7 million Australians live, including many from multicultural and First Nations backgrounds. It will also give us increased capacity to work with and build the local creative sector in Western Sydney, to tell even more Australian stories across our platforms.

The facility will be a production hub rather than an alternative general office space and will include a TV studio able to host audiences, edit suites and other technical spaces, radio/podcasting booths, collaboration spaces for talent incubation and a modest number of agile workspaces to support production. The new production space will enable SBS to deliver approximately 360 hours per year of new first run Australian screen content and approximately 1440 hours per year of original audio and podcast content that resonates with our multicultural audiences and contributes to high quality trusted content for Australian audiences.

Scoping work will commence in early 2025 and will include engaging with local and industry stakeholders to identify an appropriate site and a commercial expression of interest process in which parties (i.e. local councils and others), will have the opportunity to present options.

SBS’s response to these challenges will be informed by its purpose and values

Against the background of increasing competition but also a growing need for SBS’s purpose of inspiring all Australians to explore, respect and celebrate our diverse world, and in doing so, contribute to a cohesive society, SBS will:

1. Maintain SBS’s competitive difference in a crowded market for audiences through Australian stories, local production and Indigenous and multicultural content, and continue to elevate the role of our trusted news and information.
2. Continue SBS’s evolution as a contemporary multilingual broadcaster becoming even more relevant as Australia grows in multicultural and linguistic diversity.
3. Further SBS’s ability to provide essential information to multilingual, multicultural and First Nations communities and become an essential partner to

federal and state / territory government agencies while preserving editorial independence.

4. Drive awareness of Indigenous affairs and take a leadership role on reconciliation in Australia via SBS's Elevate Reconciliation Action Plan.
5. Optimise current and emerging digital, data, commercialisation and technology capabilities to deliver enhanced audience experiences across all platforms in a cost-effective way.
6. Continue its work to ensure SBS's services and content are present and easily discoverable for all Australians, across all methods or devices the audiences choose to access them.
7. Focus on the employee experience to attract and retain the best talent.
8. Continue to lead the industry as a great and inclusive place to work via SBS's Inclusion, Equity and Diversity Strategy which will also deliver benefits to SBS staff, the Australian creative and media industry – in front of and behind the camera – and stakeholders.

1.2 Entity resource statement

The Entity Resource Statement details the resourcing for SBS at Additional Estimates. Table 1.1 outlines the total resourcing available from all sources for the 2024–25 Budget year, including variations through Appropriation Bill No. 3.

Amounts presented below are consistent with amounts presented in the Appropriation Bills themselves, and as published in appropriation notes to the 2023–24 financial statements.

Section 2: Revisions to outcomes and planned performance

2.1 Changes to outcome and program structures

There has been no revision to the outcome and program structure for SBS as a result of the additional estimates since the publication of the 2024-25 Infrastructure, Transport, Regional Development, Communications and the Arts PB Statements.

2.2 Budgeted expenses and performance for Outcome 1

Outcome 1: Provide multilingual and multicultural services that inform, educate and entertain all Australians and in so doing reflect Australia’s multicultural society

Performance measures for Outcome 1

There has been no change in performance measures for Outcome 1 resulting from decisions made since the 2024-25 Budget. Details of the SBS' performance measures can be found in the 2024-25 Infrastructure, Transport, Regional, Development, Communications, and the Arts PB Statements.

Section 3: Special account flows and budgeted financial statements

3.1 Special account flows and balances

Estimates of special account flows and balances

SBS does not maintain special accounts.

3.2 Budgeted financial statements

3.2.1 Analysis of budgeted financial statements

SBS' operating result for 2024-25 is projected to be a modest \$2.3 million surplus.

Total revenue for 2024-25 is budgeted to be \$509.1 million. The main source of revenue, Government funding, is forecast to be \$350.3 million for 2024-25 which is the second year of SBS' agreed five-year funding. Own-source revenue largely generated from sales of goods and services is budgeted to be \$158.8 million in 2024-25 and remains in line with 2023-24.

The forward estimates include an additional \$5.9 million appropriated to scope a new, standalone SBS content production hub in Western Sydney, following the Government's decision to pursue this option instead of continuing to explore full relocation of the Artarmon office.

Portfolio glossary

Term	Meaning
Accrual Accounting	The system of accounting where items are brought to account and included in the financial statements as they are earned or incurred, rather than as they are received or paid.
Accumulated Depreciation	The aggregate depreciation recorded for a particular depreciating asset.
Activities	The actions/functions performed by entities to deliver government policies.
Additional Estimates	Where amounts appropriated at Budget time are insufficient, Parliament may appropriate more funds to Portfolios through the Additional Estimates Appropriation Acts.
Administered Items	The expenses, revenues, assets or liabilities managed by agencies on behalf of the Commonwealth. Agencies do not control administered items. Administered expenses include grants, subsidies and benefits. In many cases, administered expenses fund the delivery of third-party outputs.
Administrative Arrangements Order	The functions and activities of the government are administered in accordance with an administrative arrangement order (AAO) issued from time to time by the Government and signed by the Governor-General. An AAO establishes the principal matters or government outcomes to be dealt with by each Department of state, and the Acts of Parliament to be administered by each minister.
Administered Capital Budgets (ACB)	Administered Capital Budgets (ACB) are provided to non-corporate entities (as an equity injection) that receive government funding to meet the costs associated with the replacement of minor assets (assets valued at \$10 million or less) or maintenance costs that are eligible to be capitalised.
Appropriation	An authorisation by Parliament to spend moneys from the Consolidated Revenue Fund for a particular purpose. Annual Appropriation Acts provide annual funding for government operations and programs; for investment in assets; or to reduce liabilities. Bills

Term	Meaning
	proposing appropriations for the forthcoming financial year are introduced into Parliament on Budget Night. The annual Appropriation Bills propose specified amounts of appropriation for expenditure by entities to carry out the government’s outcomes.
Budget Paper 1 (BP1)	The Budget Strategy and Outlook – provides an overview of the economic and fiscal outlook, summarises the Government’s fiscal strategy, and outlines key Budget priorities.
Budget Paper 2 (BP2)	The Budget Measures – provides comprehensive information on all government decisions that involve changes to its receipt and payment activities since the last Economic and Fiscal Update.
Budget Paper 3 (BP3)	Federal Financial Relations – includes information on revenue provision and payments (GST and specific purpose payments), as well as an overview of fiscal developments in the states and territories.
Budget Paper 4 (BP4)	Agency Resourcing – shows, for each entity, estimated resourcing by type of appropriation, estimated expenses for each special appropriation act, estimated balances and flows for all special accounts, and estimated average staffing levels in the public sector.
Capital Expenditure	Expenditure by an agency on capital projects, for example, purchasing a building.
Consolidated Revenue Fund (CRF)	Section 81 of the Australian Constitution stipulates that all revenue raised or money received by the Commonwealth forms the one Consolidated Revenue Fund (CRF). The CRF is not a bank account. The Official Public Account reflects most of the operations of the CRF.
Corporate Commonwealth Entity	A Commonwealth entity that is a body corporate under the <i>Public Governance, Performance and Accountability Act 2013</i> (PGPA Act).
Departmental Capital Budget	Departmental Capital Budget (DCB) are provided to non-corporate Entities (as an equity injection) that receive government funding to meet the costs associated with the replacement of minor assets (assets valued at \$10 million or less) or maintenance costs that are eligible to be capitalised. The funding

Term	Meaning
	for depreciation, amortisation and make-good expenses was replaced with a DCB in the 2010–11 Budget.
Departmental Item	Resources (expenses, revenues, assets and liabilities) that an entity controls directly. This includes outsourced activities funded and controlled by the entity. Examples of Departmental items include entity running costs, accrued employee entitlements and net appropriations. A Departmental item is a component of a Departmental program.
Depreciation	Apportionment of an asset's capital value as an expense over its estimated useful life to take account of normal usage, obsolescence, or the passage of time.
Entities	Commonwealth entities and Commonwealth companies as defined under the PGPA Act that are within the General Government Sector (GGS).
Equity or Net Assets	Residual interest in the assets of an entity after deduction of its liabilities.
Estimated Actual	Details of the estimated final figures for 2022-23 as included in the Budget documentation. As the Budget may be released before all 2022-23 Annual Reports are tabled in Parliament, the figures for 2022-23 remain estimates.
Executive Agency	An agency designated, in an executive order made by the Governor-General-in-Council, as separate from a Department, for staffing and accountability and reporting purposes, under the <i>Public Service Act 1999</i> .
Expense	Total value of all of the resources consumed in producing goods and services or the loss of future economic benefits in the form of reductions in assets or increases in liabilities of an entity.

Term	Meaning
Expenses not requiring appropriation in the Budget year	Includes expenses where there is: a government policy not to fund those expenses within the year; where the funding has been provided in a prior year but the expense will be incurred in the current year; items which do not or will not involve a cash flow impact (such as bad debt expenses); or where the expenses reflect the usage of services or resources provided free of charge. From the 2018-19 MYEFO, movements of Administered funds that can be met from a prior year appropriation are not re-appropriated in the year required. Such expenses are reflected as 'Expenses not requiring appropriation in the Budget year'.
Fair Value	Valuation methodology: The amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction. The fair value can be affected by the conditions of the sale, market conditions and the intentions of the asset holder.
Fiscal Balance	An accrual measure that shows whether the government has to borrow from financial markets to cover its activities. Fiscal balance includes revenue, less operating expenses, plus revaluation adjustments, plus capital adjustments.
Forward Estimates Period	The three years following the Budget year. For example, for the 2023-24 Budget year, 2024-25 is forward year 1, 2025-26 is forward year 2 and 2026-27 is forward year 3.
