Welcome Message

As we move through the last quarter of 2023, I would like to thank all of you for your support and guidance during my first months as Administrator.

The past weeks having been both busy and fulfilling, and I know the coming days will bring more of the same as we race towards the end of this year and celebrate the start of the next.

On a personal note, I have welcomed John Bundle to my team as Executive Officer. John is an experienced federal public servant who brings a wealth of experience with him to the role, and I look forward to working closely with him as we prosecute our agenda for the future of the Indian Ocean Territories. I hope that now John and his family have settled in on Christmas Island, they will be taking advantage of the abundance of recreational and cultural opportunities our island home offers.

Like many of you, I was thrilled to take part in Territory Week celebrations last month, and come together with so many of you to pay homage to the incredible place we call home. Territory Week is always a very special time for us here on island, and I was honoured to participate in the adventure, tradition and community that is on display over the seven days in late September and early October.

As Administrator, I have diverse responsibilities that take me out and about in the community, including engaging with our wonderful school students. It was fantastic to have the opportunity to help celebrate the graduating class of 2023 at Christmas

Island District High School. I spent time, along with several other leaders across industry and community, answering questions and sharing my experience with the next generation of leaders as they embark on the exciting path to adulthood. I would like to personally congratulate each and every one of our year 12 graduates – I hope that wherever life takes you, you keep a part of your community close and know that the territory will always be your home.

We also held the regular interagency meeting last month, which provides a useful forum for officials from various agencies on island to discuss the most pertinent issues facing the delivery of services and programs across the Indian Ocean Territories, and how we can continue to support the best possible outcomes for the local communities.

Looking ahead, I am pleased to announce that I will be returning to Cocos (Keeling) Islands at the end of November and look forward to meeting with many of the community during my visit.

If you would like to find out more about anything in the newsletter or you would like a hardcopy, please contact my office. Let us know if you want us to include your upcoming community event or activity in the newsletter. Stories (including photos) about recent IOT community events are very welcome and can be emailed to IOTAdministrator@infrastructure.gov.au.

Farzian Zainal

Administrator of Christmas Island and the Cocos (Keeling) Islands

Latest News

Christmas Island District High School Graduation 2023

Thank you to Christmas Island District High School for warmly welcoming me in my role as Administrator and allowing me to host a breakfast celebrating the graduation of Year 12 students on Christmas Island on 17 October.

The breakfast was also attended by some of Christmas Island's community and business leaders, who answered questions from staff and students and discussed our own educational and career journeys, and shared our passion and commitment for the Christmas Island community and a deep love for the natural landscape that makes the island such an extraordinary place.

Congratulations to the graduating students as they leave high school behind and embark on their own journeys into adulthood.

This is an important and special time to not only recognise and mark the hard work that you have put in over the past twelve years of school, but to look forward to a future full of endless possibilities, helping shape the next generation of leaders in our community.

Local Government election update

Congratulations to all the successful candidates in the local government elections held on Saturday, 21 October 2023. It is pleasing to see an increase in the number of residents who nominated for Council on Christmas Island (CI) and the Cocos (Keeling) Islands (CKI).

I look forward to working with the CI Shire President Gordon Thomson, and new Deputy Azmi Yon, and CKI Shire President Aindil Minkom and new Deputy Mohammad Isa Minkom who were all elected at Special Council Meetings held following the elections.

On CI, Kelvin Kok Bin Lee and Azmi Yon were re-elected, and Swee (Mel) Tung and Steven Pereira are new to the Council. All their terms expire on 16 October 2027.

On CKI, Signa Knight was re-elected for a two-year term expiring 18 October 2025. New Councillors Mohammad Isa Minkom, Azah Badlu and Osman Sloan were sworn in for a four-year term expiring 16 October 2027.

I personally found my time on the Christmas Island Shire Council very rewarding. I encourage all residents to be actively involved in Council activities, and take the opportunity to attend a council meeting.

New vessel and vehicles to support community safety and wellbeing in the IOT

Construction of a new marine rescue vessel for Christmas Island is well underway, with the hull and main structure completed and works soon to move on to painting and fit-out. Once completed the vessel will undergo sea trials in Queensland before being shipped to the IOT to complete a schedule of training and commissioning.

The new vessel is slightly larger than the existing Rescue 1 vessel and will bring modern capabilities including latest generation instrumentation to support operations. Associated with the new vessel is the purchase of a new telehandler for launching and retrieval of the vessel from either Flying Fish Cove or the Ethel Beach boat ramp.

New patient transport vehicles are also undergoing fit-out ready for delivery to the Cocos (Keeling) Islands. A vehicle will be based on each island and will be used to transport those in need to/from the clinics or to a waiting medivac. These vehicles are receiving a custom fit-out to suit the specific needs of the health services on CKI and will provide safe, modern transportation for those in need on the islands.

NAIF visits Cocos

Members of the [Northern Australia Infrastructure Facility \(NAIF\)](#) team had the privilege of visiting the Cocos (Keeling) Islands during October. As part of the Indian Ocean Territories, the islands are included within the NAIF's northern Australian boundaries following legislative changes earlier this year.

The visit to Cocos Keeling Islands follows NAIF's recent trip to Christmas Island in September.

Led by NAIF's Chief Investment Officer Stephen Land and Director Stakeholder Relations Matthew Derlagen, the NAIF team met with local organisations, businesses, and other stakeholders to discuss opportunities, particularly within the tourism sector. The key focus of NAIF financing is to drive public benefit, and economic diversification in the region.

The NAIF team would like to thank all the local organisations and business representatives who took the time to meet with them, with a special mention to Assistant Secretary Indian Ocean Territories, Kim Forbes for her warm welcome and for showing us around.

Margaret Knoll lookout upgrade completed

Photos: Parks Australia.

The upgrades to the Margaret Knoll boardwalk and lookout have been completed, providing visitors to the national park with a modern and safe vantage point to observe the extraordinary and diverse birdlife of Christmas Island.

The Australian Government committed \$2.9 million to complete the works at the popular lookout, which included entirely replacing the viewing platform and boardwalk. The upgrades include sustainable design elements, including new visitor seating made from recycled plastic.

The upgrades were made due to structural concerns, with the government prioritising the safety and wellbeing of the residents and tourists alike who come to Margaret Knoll to view the spectacular coastline, as well as the breeding grounds for a number of endangered birds, endemic to Christmas Island, including the Christmas Island frigatebird and the rare Abbott's booby bird that call the island home.

Historic Jukong Restoration Project

It is said that a community without the knowledge of their origin, history and culture is like a tree without roots. And much like a tree, without care and nurturing, the culture of a community will not thrive.

...

In response to strong community interest, the Australian Government, Shire of Cocos (Keeling) Islands (CKI) and the Western Australian Museum – with the valued support of the Australian National Maritime Museum – have initiated a project to restore the five remaining historic jukongs on Home Island. Collectively, they represent the evolution of Jukong design since the early 1900s.

The project is part of a broader program which aims to preserve and record traditional Cocos Malay cultural heritage. But it is the intangible heritage, that 'handed down' knowledge which is most at risk of being lost. Home Islanders have been well known for their superior boat building skills for more than a century.

In recounting his solo voyage around the world, master mariner, Joshua Slocum recalls of his visit to the atoll in 1897.

".... The men of Keeling build exquisitely modelled canoes. By far the best workmanship in boatbuilding I saw on the voyage was here."

Much of the traditional boat building knowledge and skills is now held by just a few. Men such as Nek Callum, Nek Su and Parsons bin Yapat.

This project aims to tap into the vast experience of these master boat builders to bring these old and deteriorating boats back to life while at the same time transferring their knowledge and skills to a younger generation of enthusiasts to safeguard the continuity of this important custom.

The project is anticipated to run for the next 2 – 3 years. During this time, it is hoped that keen interest in learning the skills and techniques of traditional boat craftsmanship will bring in the volunteers that are needed to make this project truly successful. All are welcome.

And as always, this leads to another story of Home Island families, for each boat has a corresponding family history attached to it. It's a self-evident truth on the Island, families are the glue that have held the community together.

The first milestone is to stabilise the condition of each jukong. The Chula Shed will be repurposed as the restoration workshop and ultimately, the display area for the collection. The 'Chula' will remain in situ since it and the jukongs are lead characters in the story of the copra industry on island. The community and visitors are welcome to visit as these are handed down to the following generations.

And did you know we have models too? We have discovered a small collection of half-boat models from the early 1900s that were recorded as missing. All are in urgent need of very careful restoration and conservation. This work has already started and some will need serious resurrection but once completed we will be 3D scanning these models for a permanent record.

Ini Lagi c. 1950s. Adapting to lean times this was one of only four boats to be built with steam bending methods, that used minimal material and was the last known boat to be made entirely from the old stocks of teak.

Ini Lagi now, as it is cleaned and made ready for relocating into the Chula Shed and the commencement of the restoration works.

The Chula Shed is now 'almost' empty and clean. Soon it will be converted to a workshop where Seniors will now be able to put their old skills back into use and begin the detailed work of restoring the old jukongs.

Community Activities

Intergenerational music and movement session

On Thursday, 2 November 2023, we experienced just how incredibly special intergenerational relationships and bonds can be. The Mums and Bubs group joined the seniors at the seniors respite centre for an interactive music and movement session led by Pat Power.

The benefits of intergenerational programs for children are countless including increased social skills, literacy and positive attitudes towards the elderly. As for the elderly, benefits can include longevity, decreased anxiety, lower stress levels and increased social skills.

We sang familiar songs, played instruments, engaged in gentle movements and enjoyed morning tea together. This was such a wonderful form of community engagement and there were smiles all around.

Mums and Bubs sessions occurs every Thursday between 10am and 12pm. This informal group allows parents and carers the option of a face-to-face consultation with the Child Health Nurse, but more importantly allows parents to network and share together, over morning tea, the joys and challenges of parenting infants in a remote environment. If you are a parent or carer of an infant, you are more than welcome to come along or call Stephanie Sambell (Child Health Nurse/Midwife) on 91648333 for more information.

The seniors respite centre is open Monday to Friday between 8:30am and 11:30am, where trained and caring staff facilitate structured group activities designed to encourage socialisation, increase physical activity and stimulate mental engagement. For more information about senior's respite services, call Stevhnice Nel (Community Health Nurse) on 91648333.

PUBLIC NOTICE

CHRISTMAS ISLAND PORT – REPORT ON INFRASTRUCTURE – WHARF CRANE UPDATE

Stage one of the remedial works to the wharf crane have commenced. Local contractors have been engaged to carry out the recommended actions of the structural engineer's report and address the findings of the non-destructive test reports. The recommendations from the crane's manufacturer, Favelle Favco Cranes Australia (FFCA), are still being finalised and the agreed requirements will be packaged into stage two of the works.

On the current schedule, it is anticipated the crane will be entered back into service in January 2024. The logistics involved in a project of this nature are complex; and the Island's geographical location and isolation does not lend itself to a faster timeline. It is important to note that the crane will require independent certification before it comes back into service. Notwithstanding this, all best endeavours are being employed to advance the recommissioning of the crane as far as practicable.

In the interim, general cargo operations will continue to be conducted by the port barges over the water to the gantry crane on the FFC jetty.

Our obligation to provide a safe work environment for maritime industry participants is paramount and we are progressing this process as a priority. We assure you of our best intentions at all times.

David Robertson
Harbour Master
9th November 2023

Job Opportunities

Land, Heritage, Environment and GIS Officer

Christmas Island - Territory Officer Level 6 Full time ongoing vacancy

Package valued in excess of \$124,000 including:

- Base annual salary of between \$69,673 - \$94,123
- Employer contribution to superannuation at 16% of base salary
- District allowance payable in addition to base salary
- Generous leave entitlements
- Annual return airfares assistance to Perth
- Relocation assistance and heavily subsidised housing and motor vehicle may be provided if relocating to the Indian Ocean Territories

The Indian Ocean Territories Administration (IOTA) is seeking a motivated, professional, suitably qualified person to join our team as a Land, Heritage, Environment and Geospatial Information Systems (GIS) Officer. The Land, Heritage, Environment and GIS Officer will support the operations of the IOTA by providing administrative and technical support to the land, heritage and environment management function and maintaining and updating GIS data.

Our ideal applicant will have demonstrated experience in the use of GIS and spreadsheets to manage geospatial data together with a demonstrated ability to organise and maintain data and metadata as well as previous exposure to planning projects and understanding of the regulatory framework governing planning works.

The successful candidate will also demonstrate knowledge of Australian Government procurement policies and regulations, or the ability to acquire such knowledge. Applicants possessing a relevant tertiary qualification or working towards same; and a demonstrated ability to live and work in a small, cross cultural and remote community will be well regarded

To be considered, applicants must hold a current Drivers Licence transferable to the Indian Ocean Territories and will be subject to pre-employment screening and health assessment. The ability to obtain a Baseline Security clearance with the Australian Government Security Vetting Agency is an essential requirement for this role.

For an application pack outlining how you can apply, please contact the IOTA Human Resources Team at IOTHRTeam@infrastructure.gov.au and quote position number 119050.

Land, Heritage and Environment Manager

Christmas Island - Territory Officer Level 8, Full time 3 year fixed term

Package valued in excess of \$142,000 including:

- Base annual salary of between \$81,957 – \$112,288
- Employer contribution to superannuation at 16% of base salary
- District allowance payable in addition to base salary
- Generous leave entitlements
- Annual return airfares assistance to Perth
- Relocation assistance and heavily subsidised housing and motor vehicle may be provided if relocating to the Indian Ocean Territories

The Indian Ocean Territories Administration (IOTA) is seeking a motivated, professional, suitably qualified person to join our team as a Land, Heritage and Environment Manager. The Land, Heritage and Environment Manager will be based on Christmas Island and support the operations of the IOTA by ensuring effective management of land, heritage and the environment in the Indian Ocean Territories.

Our ideal applicant will have high level land, heritage and environmental regulatory and management experience; analytical and interpretive skills with ability to demonstrate this in writing; working knowledge of urban or environmental planning and of the land use and planning regulatory framework as they apply in Western Australia or an equivalent jurisdiction.

The successful candidate will also demonstrate knowledge of Australian Government procurement policies and regulations, or the ability to acquire such knowledge. Applicants with experience in the use of Geospatial apps and data and associated products and possessing a relevant tertiary qualification or working towards same; will be well regarded.

To be considered, applicants must be an Australian citizen, hold a current Drivers Licence transferable to the Indian Ocean Territories and will be subject to pre-employment screening and health assessment. The ability to obtain a Baseline Security clearance with the Australian Government Security Vetting Agency is an essential requirement for this role.

For an application pack outlining how you can apply, please contact the IOTA Human Resources Team at IQTHRTeam@infrastructure.gov.au and quote position number 119051.

Property and Justice Services Manager

Christmas Island - Territory Executive Level 2, Full time ongoing vacancy

Package valued in excess of \$193,000 including:

- Base annual salary of between \$122,831 - \$143,301
- Employer contribution to superannuation at 16% of base salary
- District allowance payable in addition to base salary
- Generous leave entitlements
- Annual return airfares assistance to Perth
- Relocation assistance and heavily subsidised housing and motor vehicle may be provided if relocating to the Indian Ocean Territories

The Indian Ocean Territories Administration (IOTA) is seeking a motivated, professional, suitably qualified person to join our team as a Property and Justice Services Manager. The Property and Justice Services Manager will support the operations of the IOTA by providing managerial oversight of the IOTA's property, fleet and justice functions.

Our ideal applicant will have demonstrated experience in property and tenancy management, or experience in a similar role, as well as demonstrated experience with Australian Government procurement policies and regulations or experience to an equivalent process.

The successful candidate will also possess excellent oral and written communication skills together with strong and effective leadership skills demonstrated by previous experience in supervising employees, managing performance, scheduling and delegating tasks and ensuring activities comply with relevant requirements. Applicants with experience in justice or court related duties or a tertiary background

in law; and a demonstrated ability to live and work in a small, cross cultural and remote community will be well regarded.

To be considered, applicants must hold a current Drivers Licence transferable to the Indian Ocean Territories and will be subject to pre-employment screening and health assessment. The ability to obtain a Baseline Security clearance with the Australian Government Security Vetting Agency is an essential requirement for this role.

Project Officer – Housing and Emergency Management

Cocos (Keeling) Islands - Territory Officer Level 4, Full time ongoing vacancy

Package valued in excess of \$101,740 including:

- Base annual salary of between \$68,198 - \$79,330
- Employer contribution to superannuation at 16% of base salary
- District allowance payable in addition to base salary
- Generous leave entitlements
- Annual return airfares assistance to Perth

The Indian Ocean Territories Administration (IOTA) is seeking a motivated, professional, suitably qualified person to join our team as a Project Officer – Housing and Emergency Management. The Project Officer – Housing and Emergency Management will provide support to the Cocos (Keeling) Islands (CKI) office of the IOTA to deliver housing, community, corporate, emergency and land management services to the CKI community.

Our ideal applicant will have a demonstrated understanding of contemporary housing and property management, preferably in a remote tropical and multi-cultural environment; and an understanding of contemporary community-centred emergency risk management, including knowledge of emergency management planning and emergency coordination, emergency service volunteers, response and recovery.

The successful candidate will also demonstrate interpersonal, communication, relationship building and consultative skills including the ability to build and maintain effective working relationships at all levels. They will also demonstrate experience working within a project management, contract management and procurement framework to achieve results.

Applicants with previous employment or voluntary experience in emergency services related roles in a small, remote, multi-cultural community and those previously trained in the Australasian Inter-service Incident Management System (AIIMS) will be well regarded.

To be considered, applicants must hold a current Drivers Licence transferable to the Indian Ocean Territories and will be subject to pre-employment screening and health assessment. The ability to obtain a Baseline Security clearance with the Australian Government Security Vetting Agency and a working with children check are essential requirements for this role.

Registered Nurse Level 2

Christmas Island - Ongoing Vacancy – Full time

Package valued in excess of \$147,000 including:

- Base salary of \$86,679 - \$92,093 per annum plus shift penalties
- Employer contribution to superannuation at 16% of base salary
- District Allowance payable in addition to base salary
- Generous leave entitlements
- Relocation assistance and heavily subsidised housing and motor vehicle (including fuel) may be provided if relocating to the Indian Ocean Territories
- Annual return airfares assistance to Perth (upon completion of 12 months' continuous service)

Are you looking for an exciting opportunity, adventure and a better quality of life

whilst expanding your experience?

The Indian Ocean Territories Administration (IOTA) is currently seeking motivated, professional and suitably qualified persons to join our team as a Registered Nurse Level 2 within the Indian Ocean Territories Health Service (IOTHS) based on Christmas Island.

The IOTHS delivers a primary and acute health care service in two of Australia's most remote and most spectacular settings - Christmas Island (CI) and the Cocos (Keeling) Islands (CKI). The IOTHS includes a 24 hour eight bed hospital and primary care facility on CI and clinics on Home and West Islands in the CKI. The IOTHS is committed to "Working with our communities to keep us healthy for the whole of our lives".

The key responsibilities of the Registered Nurse position are to deliver direct, high quality and comprehensive nursing care and individual case management and to act as a professional role model, resource and support for colleagues.

Our ideal applicant is highly motivated, adaptable and willing to be actively involved in health promotion activities. The successful candidate will independently manage one or more health portfolios and be required to participate in a 24/7 roster, including night shift, weekends and public holidays. Potential future opportunities on the Cocos (Keeling) Islands is also a possibility.

To be considered, applicants must be currently registered as a Registered Nurse with the Australian Health Practitioner Regulation Agency (AHPRA), hold a current 'C' class manual Driver's Licence transferable to the Indian Ocean Territories and a valid Western Australian Working with Children Check.

Nurses with experience in living and working across multi-disciplinary teams in a cross cultural setting and in a rural and remote environment will be well regarded.

For an application pack outlining how you can apply, please contact the IOTA Human Resources Team at IOTHRTeam@infrastructure.gov.au and quote position number **115496**.
