

New ACMA powers to combat misinformation and disinformation must NEVER be allowed!

Creating and throwing around the Terms "Misinformation" and "Disinformation" ARE the current biggest threat to the safety and the wellbeing of Australians.

It is clear our regulatory authorities in the main have been captured and one wonders if ACMA are also captured.

Already - through wicked censorship - Australians now have the highest excess deaths on record since World War 2; why?...

Through the abusive introduction and use of the terms "Misinformation" and "Disinformation" a cartel of organizations linked to the Pharmaceutical Industry were involved in what was openly called the Trusted News Initiative.

A little bit about the **Trusted News Initiative**:

Almost every piece of News that we have seen throughout Covid19 has had to pass the litmus test of the **Trusted News Initiative** or similar (News Papers, Magazines, TV, Google, YouTube)

WEF - PFIZER - TNI FACT CHECKERS

Linked to the World Economic Forum & Pfizer Inc
Reuters News is part of Thomson Reuters
Also a Partner to the Trusted News Initiative (TNI)

- Reuters News "fact-checking" unit's principal aim is to "fact-check" visual material and claims posted on **social media**.

James/Jim Smith linking it all:

- "Mr. Smith is a non-executive director of **Pfizer Inc.**"
- Mr. Smith is the Chairman of **Thomson Reuters** foundation and the former president
- Mr. Smith is also a "member of the International Business Council of the **World Economic Forum.**"
- **The Trusted News Initiative:**
A "partnership", founded by the BBC, that includes **Thomson Reuters**

regarding the "Trusted News Initiative" and censorship of information regarding COVID vaccine safety, please be aware of the link between Pfizer and Reuters. I would call that a journalistic conflict of interest. What do you think?

This wicked censorship arrangement led to:

The suppression and censorship of information from the Australian people; censorship of:

a) Successful early and [preventative multi-drug off patent treatments](#) for Covid-19 that would have prevented the approval and widespread use of patented neither safe nor effective [Lipid Nano Particle, Synthetic messenger RNA genetic instruction "vaccines"](#).

b) [The dangers of the novel technology "vaccines"](#)

c) The public understanding that the Vaccines were not needed for the majority of Healthy People; as their risk profile was negligible; especially if they had access to early treatment (which were being censored and could be censored again with ACMA's grab for censorship powers)

May the people behind this Orwellian move to install a Ministry of Truth and the suppression of free debate, free speech and scientific discussions be brought to justice; at the very least their names be put on public display and that they be exposed for their attempt to sell out the god given freedoms of Australian's and their future Generations.

Power corrupts; absolute power corrupts absolutely; ACMA already has way too much power.

Some QR Codes that link to information that ACMA seek to have the power to regulate and arbitrarily term "Misinformation" and "Disinformation"

Imagine if this information was available to the public but for similar initiatives already taken up by globalist elites pulling the strings and controlling Media, Politicians and various regulatory authorities:
