What is being shoved under the carpet here is the fact that every single bit of legislation since 1975 is invalid, unenforceable and unworkable due to Whitlam signing away our sovereignty to the U.N. (Lima) without a referendum, treason.

**The real reason why the Labor Party are promoting its "YES" vote for a voice to parliament to have the Constitution changed by referendum..**

In 1990, Federal Politician Kim Beasley Quote: "The United Nations has given the Federal Government a mandate of ownership for housing, farms, property and business to government control once the REPUBLIC has been proclaimed."

This comment by Kim Beasley in parliament back in 1990 should be ringing alarm bells. The United Nations is the NWO in waiting for a one world government.

The current push by the Labor Party for the 'Voice' referendum is the single most important part of their plan, which is to include the 'ORIGINAL' Men, Women and children of this Country (Indigenous people) into the Commonwealth Constitution because, at the moment they have 'NO CONTRACT' with the 'ORIGINAL' Men, Women and children of this Country.

Because there is 'No Contract' with the Indigenous people of Australia, a republic would not be achieved because the 'ORIGINAL' Men, Women and children of this country are the lawful land owners and the government would be unable to take control over ownership of housing, farms, property and business, thus thwarting its secretive push for a totalitarian republic where you would own nothing and be happy.

This plan as you can see was already underway back in 1990. Every State in Australia has already sold off the Lands and Title Office, your original titles have been destroyed. The value of your property is in the TITLE.

All properties certificate of title has been digitised and this is not a lawful proof of historical ownership.

Say 'NO' to the Voice and say 'NO' to a totalitarian republic they have planned for us Australians.
