Letter to the Australian Government opposing the 'Misinformation and Disinformation' Bill 2023.

Dear Members of the Australian Government,

I am writing to oppose the introduction of the 'Misinformation and Disinformation' Bill of 2023. There are many problems with the Bill which I would like to highlight. Firstly, it is an attack on freedom of speech that is inconsistent with Australia's international human rights obligations and the Bill enables government bureaucrats and big tech to silence and censor speech that goes far beyond reasonable limitation. The Bill will give government the power to silence religious and political speech that contradicts prevailing ideologies and political messaging. The Bill fails to include mechanisms to protect valid expression of opinion and belief or to ensure that there are clear and defined limits on suppression of speech. The Bill includes a vague and ideological definition of "harm" which risks it being weaponised to shut down legitimate speech on pressing social issues. The Bill does not require mechanisms that will hold digital service providers liable for excessive and onerous policing of legitimate speech.

The exclusion of government-authorized content from this censorship regime is hypocritical and inconsistent and will establish an asymmetry that results in one rule for government and another rule for Australians in what they can say. The Bill gives ACMA excessive powers to compel owners and private users of digital platforms to provide information and evidence about misinformation and disinformation that is a worrying breach of privacy. The Bill does not provide a sufficient standard of accountability and oversight for misuse of censorship powers.

The few provisions that have been included to acknowledge the competing right to freedom of expression are tokenistic and do not satisfy the high bar required in international law for the interference with fundamental rights of freedom of expression.

The severity of the penalties for failing to comply with the misinformation codes and standards and for failing to provide evidence requested by ACMA is excessive and will provide a 'chilling effect' on free speech.

Please oppose this very problematic Bill.

Sincerely,
