

I do not consent to the ACMA Misinformation and Disinformation Bill being introduced. Absolutely NO!

The idea of such legislation being executed is an insult to the intelligence of and assault on all good and freedom loving people. Literature and historical precedent illuminates this stupid proposal as a backward and reckless step towards a totalitarian state and a progressive slide down the slippery slopes of censorship and the abuse of power. This bill may appeal to the psychopaths who walk amongst us but to those sane of mind and reasonable it is NOT a good thing.

Grandiose delusions of power, though control and weaponised truth – blimey, what next!
