

Please record my opposition to the proposed Law for the following reasons.

This law is a proposal to prevent anyone, individual or group, from expressing, or having, a different idea, or opinion to any existing Government / Public Service/ACMA sanctioned and published information.

This proposal is an insult to all humanity, for the history of all human societies shows that there is no constant universal truth, least of all government truth. (See Lysenkoism attachment)

The problem with this ridiculous proposal is, who determines the truth about anything? Even recent history demonstrates that official knowledge and truisms can change in a long or short time.

Seemingly official subject experts have been shown to be less than accurate in their knowledge.

Examples to demonstrate that knowledge cannot be defined or restricted to official dogma abound and some include, but are not restricted to the following:-

Theory of relativity once ridiculed, now generally accepted as a reasonably good explanation of observations.

Valence bond theory of Linus Pauling was once accepted as the explanation for chemical bonding has been replaced by a LCAO theory which gives a better account of observations.

Stomach ulcers were officially declared to be as a result of excessive stomach acid in 1910 and all world treatment was followed in accord with this dictate. It took a brave Australian Medico in 1990s to show at his own risk that in most cases ulceration is due to a bacterium *Helicobacter pylori*, this news was much disputed and ridiculed by the establishment.

The observation that the Earth was a planet in orbit around the Sun was officially declared not only heretic but also blasphemous and criminally punishable.

The Lysenko episode in Russia under the totalitarian one truth regime of Communism led to the death by starvation of millions of Russian people, as well as the persecution of anyone who questioned the theory. (see attached file)

We have been told in recent times, official information by experts that has been shown to be not quite correct, that:-

Take the covid vaccine and you will not get the disease, I know many people who were fully vaccinated yet suffered the disease,

Take the vaccine and you will not transmit the virus, I know people who were vaccinated yet transmitted the disease to others.

Get the vaccine and you will not die from the disease, yet people fully vaccinated have died.

Etc, etc.

Factual information in the area of Man made climate change (always abbreviated down to CLIMATE CHANGE) is distorted to allow Political, Financial, and Totalitarian groups control over the direction and subservience of the various societies in an attempt to have an unelected body (the UN) the total control of all.

The IPCC (a Government sponsored group NOT SCIENTIFIC group) under UN direction came up with computer models that declared the most stupid result, that of all the many factors influencing Weather (and climate is the 30 Year average of the climate of a region NOT THE world) , that CO2 at 4

molecules in every 10,000 air molecules, (one of the lowest historical values), was alone responsible for all changes in weather averages.

And so the list of not quite accurate official information goes on.

All subjects need to be discussed and debated, then, and only then, do humans even approach explaining observed reality.

NO CENSORSHIP by Government or Public servants, by their exclusive TRUTH.

Lysenkoism (**Russian**: Лысенковщина, **romanized**: *Lysenkovshchina*, IPA: [lɪˈsɛnkəfəːʃɪnə]; **Ukrainian**: лисенківщина, **romanized**: *lysenkivščyna*, IPA: [lɪˈsɛnkiu̯ʃtʃɪnə]) was a political campaign led by Soviet biologist **Trofim Lysenko** against **genetics** and science-based **agriculture** in the mid-20th century, rejecting **natural selection** in favour of a form of **Lamarckism**, as well as expanding upon the techniques of **vernalization** and **grafting**. In time, the term has come to be identified as any deliberate distortion of scientific facts or theories for purposes that are deemed politically or socially desirable.

More than 3,000 mainstream **biologists** were dismissed or imprisoned, and numerous scientists were executed in the Soviet campaign to **suppress scientific opponents**. The president of the Soviet Agriculture Academy, **Nikolai Vavilov**, who had been Lysenko's mentor, but later denounced him, was sent to prison and died there, while Soviet genetics research was effectively destroyed. Research and teaching in the fields of **neurophysiology**, **cell biology**, and many other biological disciplines were harmed or banned.

The government of the **Soviet Union** (USSR) supported the campaign, and **Joseph Stalin** personally edited a speech by Lysenko in a way that reflected his support for what would come to be known as Lysenkoism, despite his skepticism toward Lysenko's assertion that all science is class-oriented in nature.
