

## WOMEN'S WISDOM IN THE CHURCH

Women's Wisdom in the Church, a Women's group focusing on the need for women's experiences, expertise and skills to be recognised in the Catholic Church wishes to support the submission made to The Communications Legislation Amendment (Combatting Misinformation and Disinformation) Bill 2023 by Catholics for Renewal.

We totally support Catholics for Renewal's statements that

- (a) will fall foul of the proposed legislation, and
- (b) that no exemption should be granted to teach it on the relevant media platforms, and
- (c) that, if it is to be taught on those platforms, the bill ought to be amended to require the church (and other religious bodies teaching it on such platforms) to accompany the teaching with an acknowledgment that modern psychiatry has ceased to regard homosexuality as a disorder, and instead regards it as falling on the spectrum of norm sexuality."

We wish to emphasise the changes in modern psychiatry that no longer classify homosexuality as a clinical disorder requiring treatment.
