

I wish to make a submission against this proposed legislation.

Who is to determine truth? My truth might be different to yours. And blocking peoples freedom of speech is a totalitarian communist regime choice and shows not only a weakness of government but shows that it's not there making the best choices for ALL Australians but appears to be making these rules for their corporate masters. This is a treasonous act against the men and women of Australia. All who vote in favour of this will be brought to justice for their actions.
