

Good morning ,

I am writing to you today to reference the new legislation to misinformation and disinformation . I have read through the current draft and it is very very VAGUE. I am extremely concerned for a quite a few reasons this goes against my constitutional rights to free speech. It is also alarming that that this has been put in place to silence anyone's rights to go against this current government . Even so far as you will be giving ALL RIGHTS TO a few and strangling the No vote ! This too is DIRECTLY against our current non altered constitution. This places Australia in a place of being in the worst of human rights ever seen before ? So only the government, indigenous and yes voters have the right to debate again this is in the Magna Carta. This as you know is not IMPARTIAL nor fair. So we're being silenced prior to any constitutional change being put in place before any amended changes. This is highly ALARMING where one Government Deliberately gives ONE SIDE THE YES SIDE all benefits Effectively silencing in the name of misinformation .The information on line should be pulled from facts ! But this is deemed vaguely anything against the governments objective . Is this factual or THEYRE version of facts like Covid . This puts Australia into line with with CHINA and Russia . This is a class action suite just waiting dressed up as loosely and vague as possible silence FREE SPEECH AGAINST ANYTHING THE GOVERNMENT DOESNT LIKE OR CANNOT GET OVER THE LINE WITHOUT DECEIT. I only pray they're is a special place in hell for the perpetrators of this communist law. I will register with human rights my plight .

Regards Julia Mclachlan
