

I've been in my home at [REDACTED], for 8 years now.
In the last few months the noise level has increased as planes seem to be flying lower.
I am woken 2 or 3 times a night with loud low flying aircraft.
So many loud planes go over, we can't hear the television, can't hear conversation.
When will there be a night curfew? Sydney has one, London Heathrow has one.
Attached is my noting how frequently low flying noisy planes fly over my home.
It continues over the page making it 44 planes! And that's just till around 10.36.
Brisbane is going to be Australia's most unlivable city!!

Please help!
Louise Yearn

A handwritten log on lined paper titled "Thursday 14 Sept" with a circled "38" below it. The log lists 20 aircraft sightings with their times and directions. The times range from 6:22 AM to 8:57. Directions include "9-08", "9-18", "9-21", "9-24", "9-31", "9-36", "9-39", "9-41", "9-42", "9-44", "9-46", "9-50", "1+9-55", "9-58", "10-02", "10-04", "10-07", "10-12", and "10-19". There are some corrections and scribbles in the later entries.

Time	Direction
6:22 AM	9-08
6:28	9-18
6:30	9-21
6:35	9-24
6:45	9-31
7:13	9-36
7:19	9-39
7:23	9-41
7:31	9-42
7:34	9-44
7:37	9-46
7:53	9 9-50
8-11	1+9-55
8:15	9-58
8-20	10-02
8-26	10-04
8-27	10-07
8-30	10-12
8-57	10-19
