

To whom it may concern,

I am a resident of Brisbane who happens to live below a flight path I have lived [REDACTED] since 1986 & never have had to live with such horrific plane noise, Some days the huge Aircraft are just above the trees particularly Qatar Airlines, This is totally unacceptable Other times one plane after another in less than 2 minutes apart they must be in a holding pattern This has affected my health I no longer enjoy living in this once beautiful peaceful area.

In fact it's Hell on earth and much more needs to be done about how low these planes are legally allowed to fly above homes.

Please help us residents,

Aviation must have some stricter Rules it's frightening when these huge planes fly just above your roof

MRS Gabrielle McEwan
