### Short comment

I get public transport on buses lot of still don't drop the airbags down i am on crutches at moment from massive broken leg and knee still healing with low vision in one other vision gone struggling from stroke it very hard to get in out buses same as trams with steps you have low floor trams on some routes not all trains some train station huge step down to get on or off platforms from trains you have no idea i struggle every day on public transport to got to my medical appointments the surgeon said if i fall again i will loose my leg from it you need to act on this fix the problems or have solutions people still don't give up seats in disability's seats i have to stand on public transport joke i am dealing with so much anxiety depression pain trauma flashbacks nightmares susuide self harm because on public transport people don't care about what i have been through it hard enough just get on public transport I wish i like to see more pso on public transport plain clothes and book these people and help people on and off public transport i am getting frustrated i am not doing anymore hospitals and medical appointments I struggle and stressful just to get there and get home on public transport it hard for me to take pictures to send it on files i don't have camera phone send people out in places see for your self in the suburbs please help fix the problems listen to people with disability's instead sweeping under the carpet help us disability's put you in my shoes for a week and see how hard it is every day new day for me and get up tomorrow and start it and do it all again my hurdles I face every single day
