Short comment

Displaying my submission is fine. I am disabled and now have a stoma bag and live in Bathurst. I need to be able to empty my stoma if needed or not eat. I liked travelling to Sydney and as long as I went to the toilet before train departure I didn't need to use the toilet the whole journey. Now I find with the stoma bag I am prevented from travelling as the toilets are so disgusting they are unusable, (maybe I should sue, hmm my Cousin is a Solicitor with his own Law Firm.) Also I am sixty and the trains from Lithgow are over fifty years old. The toilets there are also unusable. So what do I do, sit at home and do nothing? Go nowhere. I liked going to Sydney and exploring. I like exploring everywhere. Near and far.
