## Step 1: Your submission

**Remain Anonymous**

Yes

**Private Submission**

No

**Short comment**

There are a number of repeated and short bus routes for public and school buses, given there are so many new estates going up around the town it would be expected the buses run a little further. These concerns have been brought up a number of times with the schools and the public transport however no action has been taken or received. There are a number of children residing in my area in particular who would benefit from the bus having greater area coverage. There are a number of school aged children who are anxious or have a disability who would be able to build their capacity and independence within the community. While be welcomed and becoming an active part of the community.
