**Subject:** Advocating for national MPTP

[REDACTED]

Hello

I am a regular traveler interstate, and it is becoming tiresome to submit complaints weekly on the bad behaviour of taxi drivers arguing with me on the Interstate Taxi Subsidy Vouchers.

A national system is needed.

It will save paper, administration, frustration, as well as overall time to have one system. Not only that, a paper system is not accessible for everyone with disability. This will also alleviate both direct and indirect discrimination.

Please advise if this is on the agenda to create a fair and equal system for people with disability to travel interstate without facing constant discrimination.

Please advise if further information is required.

Kind regards
