Short comment

It should be mandatory for all public transport providers in all areas of Australia to be accessible to all members of the public. It is not good enough that access to public transport (whether by location or company) is A. Not made accessible and there for B. Discriminates certain sectors of the community, which C. Ultimately is discriminatory and fails to meet the legislation.

Governments, councils and companys everywhere need to improve access to all public transport to enable every Australian (regardless of location) to have a meaningful and equitable life/lifestyle.
