Australian Government

BUILDING OUR FUTURE

Urban Congestion Fund

Commuter Car Park Upgrades

State: Victoria

Proposed AG funding: \$68 million

Mode	Major freight route	Major Commuter corridor	Commercial precinct
	✘	✔	✔

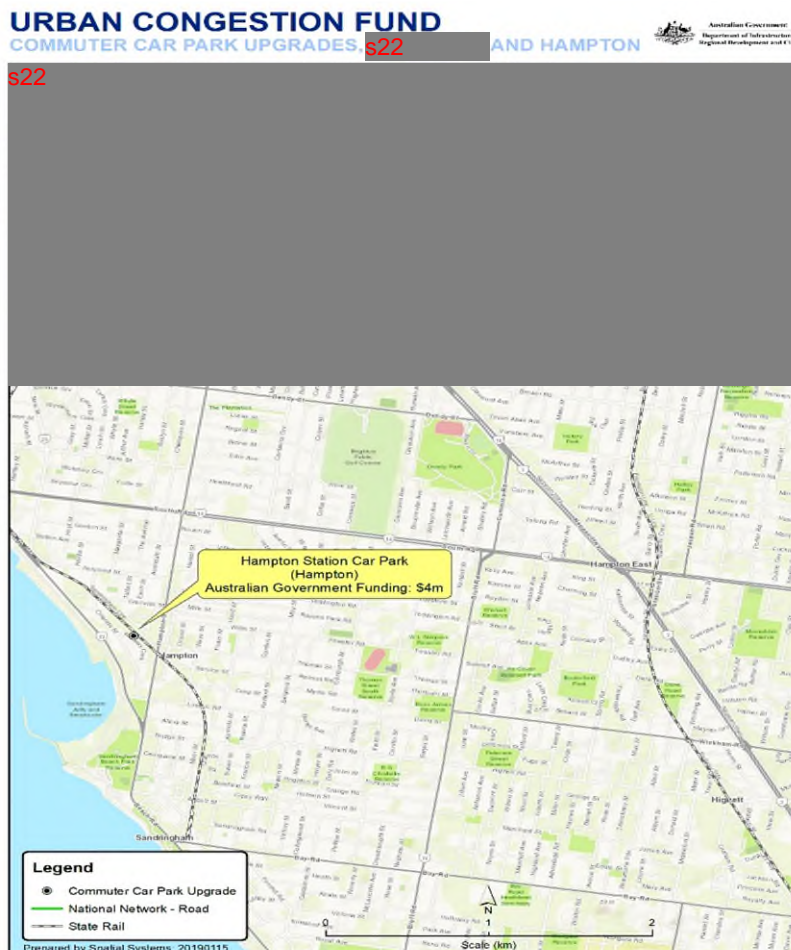

PROBLEM DESCRIPTION

This project would use the existing network to enhance public transport usage and efficiency by improving park and ride stations and facilities.

These park and ride stations are located at s 22, Hampton, s 22.

PROJECT BENEFITS

- More integrated and effective transport system, through the provision of additional parking at stations

s 22

What are “Commuter Car Park Upgrades”?

- Encouraging the use of public transport is critical to addressing congestion on our roads.
- Commuter Car Park Upgrades will provide funding for initiatives such as improving parking at train stations, or providing better access to public transport for commuters that do not live within walking distance of a station.
- These upgrades will occur in Melbourne s 22 , Hampton, s 22 .

s 22

s 22

Tackling pinch points will keep us moving

s 22

s 22

s 22

Another one of our projects is focused squarely on encouraging public transport use by upgrading to commuter car parks. We are investing in 'park and ride' facilities in s 22 Hampton, s 22 . Many people would like to use trains but do not live within walking distance of a station. So by investing in these commuter car parks we are, literally, better connecting many people while reducing congestion for us all.

We've worked hard to select projects which provide the greatest benefit: The biggest bang for the taxpayers buck, if you like. We used an evidence-based process to target high-priority growth areas and corridors, to support broader urban development, to prioritise links to economically critically destinations – such as ports and employment centres – and to use technology such as Intelligent Transport Systems where possible.

We are tackling trouble spots to allow people to get home sooner and safer through the Urban Congestion Fund. Better roads get us all home faster. They make it easier to commute and to deliver freight, making our cities more liveable.

We look forward to working closely with the Victorian Government to deliver on these commitments this year.

Secretary's Update Template

s 22

Project/Initiative [Item's heading]: Urban Congestion Fund in Melbourne

Contact Officer: s 47F

Cleared by: s 47F

Friday date of relevant Secretary's Update: 8 February 2019

s 22

This week the **Hon Scott Morrison**, Prime Minister, alongside the **Hon Alan Tudge MP**, Minister for Cities, Urban Infrastructure, and Population, announced a total commitment of \$261.3 million towards nine new 'congestion busting' infrastructure projects in Melbourne. The projects form part of the Australian Government's \$1 billion Urban Congestion Fund (UCF). The works announced will target congestion on the s 22

The Prime Minister and Minister Tudge also announced commuter car park upgrades at six locations - s 22, Hampton and s 22. In addition to addressing congestion, these works are expected to improve safety and network efficiency in urban areas and support public transport usage. As the Prime Minister commented, the additional car parking and removing pinch points and bottlenecks will make a real difference to the lives of people living across Melbourne.

Subject: For clearance - UCF Melbourne Location Names and Funding Figures [SEC=UNCLASSIFIED]

Good Afternoon S and Team,

Thank you for your direction and support with the locations, your below directions are what I've used to guide our re-shoot.

As well as videos, we will be preparing banners and the likes for each UCF location. Can you please fact-check/clear the below location names and funding figures for the 8 Melbourne locations (and the 6 park and rides). At your earliest convenience would be appreciated.

Busting congestion in Melbourne... ..including LOCATION.

LOCATION and funding amounts:

Recommended Location Name for use in Banner and Social Media Products	Australian Government Funding (\$m)
s 22	
...including park and ride facilities at six locations - s 22 Hampton and s 22	s

Kindest Regards,
s 47F

Subject: Dumb Question [SEC=UNCLASSIFIED]

Good morning!

How do you guys source the PDF (nicer formatted) ministers' media releases?

https://minister.infrastructure.gov.au/tudge/releases/2019/february/at010_2019.aspx

I need the above for Oliver's estimates pack but there hasn't been the PDF option on the website for quite some time so we've been putting up with the crappy format. I notice when you send the occasional one through for our info though that it is in the nice PDF format.

Any chance you have this one in PDF too? And is there a way that I don't need to bother you to do the PDFs myself?

Apologies for the dumb questions so early in the morning. ☺

Hi s and team,

Great – thank you for all of your advice, I really appreciate it. We have the three revised VIC videos, based on all of your feedback. All three videos are in the link below:

s 22

Could you please clear these (and mention any concerns) at your earliest convenience? We're hoping to get our provider to do the final rendering of these videos so they are ready to go to the MO on Friday, which for our provider means getting back to them by perhaps Thursday. I'll confirm with the provider when they'll need the 'go-ahead' in order to meet the Friday deadline, and will let you know if that is different to my current Thursday suggestion.

Just as a note, faces and number plates get blurred in the final rendering stage of the videos, which is why they are not yet blurred (but we will ensure they will be blurred).

Kindest Regards,

s 47F

Hi s

s 22

The state map is good. Thanks for that.

s 22

Of the videos at the below location – I like groundshot 002. I also thought ground shot 014 and 010 may not be as useful. The others provide some good footage of congestion. Similar to the license plates, do the faces get blurred out?

thanks

Hi S [redacted],

As per our phone call I've added some of our other nice s 22 [redacted] shots in the UCF Maps folder in 'Everyone' of the g-drive. Please follow the path:

s 22 [redacted]

I think the best way to approach it will be to indicate your preferred shot, but also suggest which other shots could be usable (i.e. do not have any visible issues). Please let me know if you have any issues finding the above folder of videos. If none of these look good I can give you even more options.

Any further questions please let me know, happy to talk it over.

Kindest Regards,

s 47F [redacted]

Hi Daniel,

As per the discussion just now with the Secretary, could I ask you to draft up a short article on the Urban Congestion Fund – Minister Tudge? I'll do my best to track down the photos if you can provide the words.

Deadline for this is by 10am tomorrow – Friday 7/2/19 (sorry).

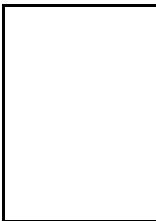

Please let me know if I can help in any way.

Kind regards
