Hi Andrew

Released under the Freedom of Information Act 1982 by the Department of Infrastructure, Transport, Regional Development, Communications and the Arts

Thank you for your time earlier to explain the information you needed from the Regional Programs Branch to facilitate the transfer of projects currently committed under the Investing in Our Communities (IIOC) program

I have set out the information below. Please let me know if you have any questions. The profiling of the transfers, and in fact for the whole program, is arbitrary as we do not have sufficient detail on the projects to accurately predict expenditure at this stage. We would therefore be agreeable to the profile put forward by Education and DSS.

s 22
There is no capacity to transfer departmental funding as the agreed appropriation of departmental is not allocated on a pro-rata project basis. There are **s 22** projects to be transferred out of the program to the **s 22** and DSS. This represents 0.5 % of the projects in the IIOC program and would mean a negligible amount of departmental funding.
