

Australian Government

Department of Infrastructure, Transport,
Regional Development, Communications and the Arts

Freedom of Information Request – FOI 25-119

Number of vehicles with Concessional RAV Entry approvals issued, otherwise incomplete due to model report suspension.

October 2024

Data correct as at 27 September 2024:

Vehicles with a Concessional RAV Entry approval issued and still in force and have not been added to the Register of Approved Vehicles (RAV) because the model report has subsequently been suspended	28
Vehicles covered by a Model Report that was voluntarily suspended by the approval holder	2
Number of applications assessed for concessional RAV entry including a warning as part of the assessment that the Model Report was under investigation and may be suspended, all applicants choosing to continue with the application and agreeing to the additional condition that the vehicle will be exported if not eligible to be entered on the RAV	17

Note: The department has not verified if the vehicles have been imported into Australia, approval holders can decide not to proceed with importation after an approval is granted. Suspension could be completed voluntarily by a Model Report approval holder or by the department due a non-compliance.
