

Library services

Delivered by the State Library of Western Australia in the Indian Ocean Territories

April 2022

Services

The Library Board of Western Australia, on behalf – and fully funded by – the Australian Government, provides the following services:

- collect, organise and preserve the documentary heritage of the Territories as required by Territory laws
- preserve and provide access to, these collections as part of the Territories heritage
- play a vital role in literacy and learning at every stage of life
- leading library services in Western Australia.

What does this mean for me?

By using the library services, Territories residents have access to:

- new library materials delivered to the libraries on a regular basis
- a range of eResources available for use at home, including eBooks, eAudio, eMagazines and video streaming
- a Better Beginnings reading pack for every baby born, and for all two and four year olds
- access to the entire Better Beginnings program.

The library supports literacy for children by providing them with greater potential to grow, learn and develop, perform well at school and succeed later in life.
