

Australian Government

# The Australian Government is introducing the New Vehicle Efficiency Standard.

# Starting in 2025, you will have more choice of new fuel efficient cars that are better for the environment.

## This means:

- If you're looking to buy a new car, you'll have more choice of fuel efficient cars whether they are diesel, hybrid, electric or petrol.
- If you buy a new fuel efficient car, you can expect to save money at the petrol pump.
- Our air quality will improve and Australians can expect to benefit from around \$5 billion in health cost savings by 2050.
- Your new car purchase will help Australia reach net zero goals.
