

Organisation questionnaire response

Privacy Setting: I agree for my response to be published with my name and position.

What organisation do you represent? (required)	Warrnambool Auto Group
What is your name? (required)	Josh Dwyer
What is your position at the organisation? (required)	Director
Please rank the proposed options in order of preference. (optional)	Option A - 1st, Option B - 2nd, Option C - 3rd
Briefly, what are your reasons for your choice? (optional, 3000 character limit)	The targets and the speed the government is trying to push this through is just un realistically for business holders and the consumers. Has the government considered what will happen to the average consumer and how this will affect our roadways moving forward. The annual new vehicle purchase will reduce, the number of car sales will increase which in turn won't assist the emissions the government is chasing. Have the government considered the difference this will make to the safety of the cars on the roads, every new car that is released has greater safety standards than the previous years they were released hence with reduced new vehicle turn over and a greater volume of used car sales and people holding onto the current car they have which I'm sure will deteriorate and have reduced safety features for the people travelling in that vehicle.
Do you support the Government's preferred option (Option B)? (optional)	No
Do you have any feedback on the analysis approach and key assumptions used? (optional, 3000 character limit)	We aren't ready, this seems rushed and seems like a knee jerk reaction late.
Briefly, describe how the NVES might impact your organisation (optional, 3000 character limit)	it could send us broke and as such make 65 families jobless.

Who should the regulated entity be? (optional, 3000 character limit)	NULL
