

---

Dear Madam/Sir,

I write in reference to an article in the Esperance Weekender, 9 July 2021. The story headline states - Review invites input on telecommunications and lists this email address as a contact..

My property is a mere 14k from the Esperance Post Office. It is outside the NBN cable region and I have access to the internet via a satellite link. This provides a scratchy VOIP phone connection for urgent calls. Mobile reception is available - at the odd location on my farm property.

I am interested in contributing to the review and seek your guidance on the process available and best suited to individuals like myself.

Kind Regards

Dr Kaj NIEUKERKE
