

Good morning

Please find noted below feedback on behalf of Councillor Ellen Smith, Rockhampton Regional Council in regards to poor mobile and data coverage within the Region.

I would like to report that mobile service through Bouldercombe on the Burnett Highway is almost non-existent with the phone likely to drop out in the middle of a conversation. Also the service is almost non-existent when you are travelling north-west to our rural community of Mornish. This leaves our residents in a vulnerable situation with the area being mainly large properties and in a fairly isolated location.

Regards  
Ellen Smith

*Regards,*
