Regional Telecommunications Review

## **REGIONAL TELECOMMUNICATIONS OR TO WHO IT MAY CONCERN,**

We live at [REDACTED] Mengha, Tasmania 7330 in a dead spot and our mobiles cut in and out all the time which makes it very hard running a business, we both work for ourselves and our mobiles are very important, I did look into getting a antenna for our house but told of the price and no guarantee that it would work. 2 years ago, in October our house caught on fire and I had to run up and down the main road holding my phone up trying to get service, twice I rang 000 and both times was cut off half way through telling the emergency service what I needed!!!! This was more traumatic that the house burning down. We don't live in a gully but up high and I don't understand why us and our neighbours have such bad service. I would appreciate anything that can be done for us thank you for your time.

Regards Steven and Jocelyn Flint
