

I live in Riverton S.A 5412. Have been there for 10 years, and all the residents within the town complain about mobile reception, I changed from Telstra to Optus at one point, only because of price and their coverage map showed good coverage, got home and no service, changed back to Telstra, still only 1 bar service. Riverton is a tourist town, people come into town expecting service and they complain about it and dont come back.
Cheers Craig.
