*Attention Rural Committee for Regional Telecommunications Review*

*After reading the article titled "Regional communication investigation" by Jamieson Murphy In the Farm Weekly of June 10, I would like to bring attention to black spot in the Rural Region of Meelon, in the Shire of Murray Western Australia.*

*There appears to be black spot communication with Optus, at the foothills of the Darling Scarp, and at times there is no or very limited telephone communications.*

*I hope that the Regional Committee will be able to look into to this.*

*I look forward to your response.*

*Regards*
