

Hello

We are the owners of the only Caravan Park / cabin accommodation in Gulargambone nsw [REDACTED]
Internet services in Gulargambone are mostly slow or non existent We could be on the phone to a customer & phone will disconnect or keep cutting in & out Sometimes we have to walk outside onto road to make or receive phone call Landline or mobile

When we are trying to send emails connection may drop out or is so slow we are timed out & sometimes have to try again 3 or 4 times or wait for another day

Guests are continually complaining about slow internet or non existing

Telstra is only available in Gulargambone so any guests who have Optus or another carrier have no phone service at all

Hopefully these problems can be looked at & a suitable result can be achieved for everyone

Thank you

David & Bernadette Erazier
