

17<sup>th</sup> August 2021

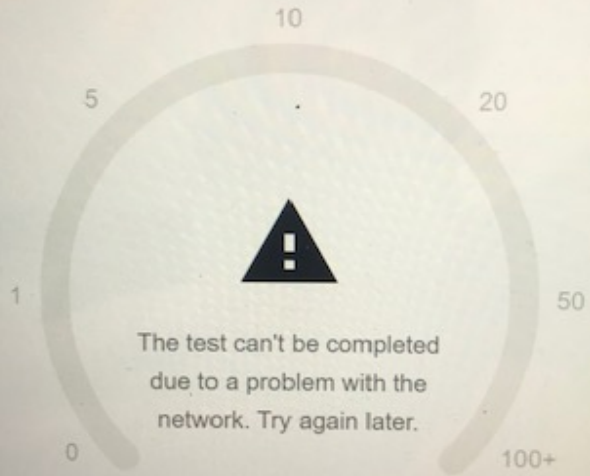

While trying to work  
from home using  
Microsoft Teams.

The screenshot shows a web browser displaying a broadband speed test result. The page title is "Broadband Speed Test" with navigation links for "Test Locations", "Compare Broadband", and "Knowledge Base". The main heading is "Result #61418198". The test results are as follows:

| Metric            | Value                                    |
|-------------------|--|
| Download Speed    | 0.44 Mbps (Peak 0.48 Mbps)               |
| Data Downloaded   | 0.56 MB in 10.2 seconds                  |
| Test Run Date     | Tue 17th Aug 2021 12:06pm (1 second ago) |
| Speed Test Server | Launtel (Melbourne, VIC, Australia)      |
| Your Details      | Telstra                                  |

The browser's address bar shows "for r3.whistleout.com.au...". The Windows taskbar at the bottom includes a search bar and icons for the Start menu, Edge, File Explorer, Chrome, and Teams.

### Internet speed test

The test can't be completed due to a problem with the network. Try again later.

Latency: 40 ms  
Server: Sydney

Your Internet connection is slow.

Your Internet connection should be able to handle one device at a time streaming a video. If multiple devices are using this connection at the same time, you may run into some congestion.

## Your speed test results

**1.5** Mbps

DOWNLOAD SPEED

Higher speeds give you a better experience for things like video streaming or internet browsing.

**0.9** Mbps

UPLOAD SPEED

Higher speeds help things like video calling, sharing large files and online gaming.
