
Short comment

I, like many other people in the community of Lake King have spoken to Telstra to try and get our phone/internet services fixed as it is very unreliable and our internet speeds are atrocious, all to no avail. I'm not sure how it cannot be considered that Telstra hold a monopoly over the majority of country Australians communication and it show in the way we are treated, it sickens me to see all these ads about city areas getting money spent on upgrading to 5G whilst so many barely have a 3G service but are expected to pay the same for a sub standard service. My residence is 6.3km from the town tower so distance is not the issue, I for one am sick of it and hope that in the future there might be a viable option so I can treat Telstra with
