

NBN Connection Types

Data source: nbn_co_limited.tab downloaded from data.gov.au current as at 11/11/2020. Nbn_co_limited.tab data joined to vicmap address current as at 26/11/2020 by location and thematically mapped via Network_In

Legend:

- Freeway/Highway
- Major Road
- Road
- Railway

Vicmap Address Points Joined to nbn_co_limited.tab: [10378]

- Fibre to the Distribution Point/Curb [587]
- Fibre to the Node [2869]
- Fibre to the Premises [141]
- Fixed-Wireless [3988]
- Satellite [2793]

*Address points used in calculations include primary, secondary, active and proposed addresses. If an address point intersects more than one network connection, it is duplicated in the dataset
