

I understand dtv revisions will be made on March 31st. I would just like to make a suggestion for more emphasis on high definition.

I liken it to colour TV. Imagine when it came in that it was a secondary channel with re runs of black and white TV on the colour channel.

Unfortunately that is what is happening to our high definition in Australia it is confined to a secondary channel for re runs of old shows.

It needs to be the main channel with first rate programs ESPECIALLY LIVE Sport.

Please consider this request.
