

Submission to the Australian and Children's Screen Content Review

Our family are passionate users of ABC iView for the following reasons:

- There are no commercials
- We can watch the programs we want when we want
- We enjoy the quality programming
- We can safely allow our three and ten year old girls to watch programmes unsupervised on ABC kids/3 knowing the content is age appropriate and educational. I am particularly impressed with the offering of kids programs dubbed in Mandarin.

We would like to see more Australian productions for kids to balance out the British content; provide positive male and female role-models and; support diversity.

Nancy Wah Day
