Morning

I have submitted the online form however it did not give me anywhere to put the address as to where the problem is occurring.

The school has been trying to fix their internet problem as it is painfully slow which means the students in the IT Lab, the Admin Staff and Teachers are all wasting a lot of valuable time trying to get onto the internet, outlook, banking etc.

The NBN will not be here for over two years and as everyone else will be on it at the same time it will probably not fix the problem. We have had quotes for an antenna however they could not get line of site to the satellite.

We have had quotes from Telstra for a dedicated fibre optic cable to the school however this will cost the school over \$50,000.

In this day and age it is causing a lot of problems for the school.

If you would like further info please give me a call.

Thanks

Regards

Leslee Penno
