

-The online content scheme under Part 9 of the Bill should be removed as it is not related to issues of online safety and is likely to harm the livelihood of sex workers, adult media performers and adults-only businesses.

-The role of the eSafety Commissioner should be to focus on non-consensual, abusive and harmful content and not imagery of consensual sexual activity between adults.

I own an adults only business that helps people legally and supportively with sexual health and wellness issues. My business is one of many trying to spread a message of sexual positivity and hope in our community nationwide. We need to be able to promote our sexual expression and this bill specifically section 9 will directly harm our business and our message of hope.

Stop trying to repress people natural desires stop trying to censor consensual and legal activity! Focus your attention of the real issues here which are non consensual, predatory, and illegal behaviours and content!

Support sex workers, support the sex and adult industry and support peoples right to sexualality and desire.
