
Carl Erickson

Hi my name is Carl Erickson.

Apart from the obvious need for work in the industry that I love, we need more programs in this country to have more local stories and content, so our children can grow up hearing our stories, voices and seeing our Country. To further our feeling of knowing who we are, giving us more feeling of national pride and better understanding of our evolving culture. Solidarity and acceptance as Australian people. And as most of the people with the most time to watch Television, the young people have to have a see Australian content to know what they are apart of, not think and speak American content.
