**Megan Kozak**

Please support the Australian industry. Without any regulation or incentives, our tv and film content will be all imported. Especially in this current climate, we need to do what we can to support Australian actors, writers and crew. Our industry has been seriously impacted by the pandemic, and now more than ever we need the support of the government.

It will be more important than ever to see Australian stories on our screens. Netflix and similar streaming services are filled with American content. If they are allowed to capitalise off the Australian people, then they should be required to contribute towards our arts industry. As an actor, I am aware of the prevailing attitude that you have to move overseas to really be successful in this field. That shouldn't be the case, but we need the government's support to help change this.
