Re.the black spot meeting at Tamworth we will not be able to attend so am submitting this email.As we pointed out to Barnaby Joyce in a previous email the Enmore district approx.40 km.east of Uralla [N.S.W.is](#) an isolated grazing area with an ageing population as are most grazing communities.It is surrounded on 3 sides by steep rough gorge country.It has little or no mobile coverage & an unreliable landline coverage.There have been numerous ambulance callouts over the years due to accidents.Horses chainsaws tractors quads [etc.as](#) well as sick calls.There have also been missing person incidents & 2 cases of people dying in their paddock that i was part of the search parties involved.Shorley in a wealthy country like Australia in the 21st.century this problem can be remedied quickly.Yours in anticipation.The Swanson family.
