Subject: NBNCO registration of property pre NBNCO

Hi

It has come to my attention that some home builders do not register a new built home address with NBNCO. This means the owner/occupier cannot connect to the NBN or have a home phone. My suggestion is that when the owner/occupier moves into their home, the Local Government authority make this information available to NBNCO facilitating registration of the address , thus automatically updating the NBN rollout map.
I hope this suggestion is helpful

Regards
Selwyn Glanvill
