CIRCULAR 47/00.3.1

INTERPRETATIONS

Interpretation No. 1 (Annex A of Appendix A)

Question: Annex 7 of Appendix A of ADR 47/00 only mentions red reflectors. What are the photometric requirements for reflectors identical in design except for the colour?

Answer: Photometric measurements to Annex 7 must be conducted on a red reflector. An amber or white reflector of identical design to a red reflector which meets the requirements of Annex 7 shall be deemed to comply with the photometric requirements of ADR 47/00. If a red reflector is not part of the product range then a red reflector shall be specially manufactured and tested to the requirements of ADR 47/00.
