

## Submission 62 – RVS Legislation Consultation

16<sup>th</sup> February 2018

### ROAD VEHICLE STANDARDS SUBMISSION

To MVSA Team

After reading through the road vehicle standards proposed legislation. I would like the review team to consider the following

Camper vans and motor homes

In the new legislation it states original manufactured

I believe there needs to be a 2<sup>nd</sup> stage manufactured for legitimate campervans and motor homes as there are a large number of manufacturers business with in Australia supplying 2<sup>nd</sup> stage quality motor home to the Aussie market and keeping us proud Aussies employed and not some other business overseas. I believe that the new proposed system in place will stop the loophole for the current Estimias and Elgrand.

By not allowing 2<sup>nd</sup> stage manufactory for campervans and motor homes these business who employ locals are going to close and will have large amounts of job loss in all our local communities and multiple business closures not just motor home builders all the other trades that have built business off business that also employ staff in the local communities it's a chain reaction one goes down and always takes more with it.

I BELIEVE THE GOVERNMENT IS MORE THEN WILLING TO THROW OUT THE WINDOW AUSTRALIAN JOBS AND AUSTRALIAN MADE WHY???????

I also think if the government is willing to give 1 extra year for the Estimias and Elgrands what about the people like us that build ligament motor homes out of Toyoya Granvias and Toyota Coasters I believe that we should be allowed the extra year after all we are doing then the proper way as a CAMPERVAN not a people mover.

Under the new proposed legislation there are going to be multiply business closures as the Government is (actually) closing the door to the Vehicle import industry.

I am trying to get my head around why the Government is protecting the new car industry as they have gone and taken tens of thousands of Australian jobs offshore and now protecting them and closing the door to the imports, whilst stating in many media releases they are giving Australians more choice.

What is this Country coming too??
