

## Submission 8 – RVS Legislation Consultation

31/01/18

To whom this may concern,

My submission today is to request that the physical VIN plate will not be required to be fitted to TC & TD- Trailers.

This will bring trailers in line with Trucks, Cars, Buses and other vehicles under the new proposal with the VIN public information accessed solely through RAVS.

Any other trailer specific information can be supplied on a manufactures plate or through contact the manufacturer.

Kind regards

**Steven Foxwell**
