

### **Submission 3 – MVSA Review 2014**

Hi There

As a car lover I am asking for you to remove the restrictions on importing second hand cars from other countries. As we will not have a car industry by 2018.

I would and I am sure thousands of other people would like to have the opportunity to purchase a second hand car from other countries at a reasonable rate. not at an over inflated rate the local dealers are charging

Why as a free trading partner can't we enjoy cars at similar prices to our trading partners.

Please give us a fair go

Regards

David Connor
