

Submission 65 – MVSA Review 2014

Motor Vehicle Standards Act Review Committee,

In response to the Department of Infrastructure & Regional Development's review of the Motor Vehicle Standards Act and subsequent request for submissions, the Dealer Group Against Used Car Imports (DGAUCI) which members include the Nissan National Dealer Council, National Mercedes-Benz Dealer Council, Mazda Dealer Association of NSW, BMW National Dealer Council & Hyundai National Dealer Council hereby submit our submission along with Deloitte Access Economics review analysis report for the Department's consideration.

As a group, we are very concerned about the potential erosion of safety standards and the potential knock on effect this could have in traffic accidents. Clearly any evidence in the future that links accidents to imported cars, which did not enter Australia through a mainstream motor vehicle importer, would attract strong public interest.

We thank you for your interest in our submission and look forward to future discussion and consultation.

Kind Regards

Meon Nehrybecki

Chairman Mercedes-Benz National Dealer Council
